All the apps in this book are essential and important

We have different types of Google applications and they are all interrelated

That is they work hand in hand with each other

Examples include Google Drive which gives you the platform to save all of your documents on the cloud without the fear of losing all documents when you lose your phone

Once you have a Google account you automatically have 15GB of free space so you can save anything you want to save

We also have Google docs

On this app you can type anything you want on it it has most of the normal Microsoft words features so it makes it easy for you type especially for those who will like to use their phone to type but the difference between this and Microsoft is whatever changes you make on the documents it automatically saves it

It is not like Microsoft word that you still need to save

There is also Google Slides and sheets

It makes it possible for you to create a presentation and also create new spreadsheet documents

Let's not forget Google contacts Google calendar Google duo Google photos

All these have their unique characteristics and you will be taught how to set up each Google application effectively in this book

In this book you will learn how to set up and use Google Drive Google doc Google forms and Google Sheets Google Slides Google Duo Google
