Corporate Social Responsibility Reporting in Developing Countries Ataur Rahman Belal, 2016-05-13 Historically the study of corporate social responsibility CSR reporting has largely been within the context of Western economies However in the wake of highly publicized incidents such as Bhopal and the struggle of the Ogoni people in Nigeria many large corporations now claim to be taking steps to improve their environmental and social performance within developing countries Using the lens of stakeholder theory this book examines whether the current practice of CSR reporting in developing countries is motivated by a desire to discharge accountability to all relevant stakeholders or whether it is being driven by the imperative of advancing corporate economic interests While concepts like CSR reporting have become more fashionable they vary widely in different national contexts this book therefore clarifies the types and roles of CSR reporting and the underlying corporate motivations The author considers the current CSR reporting practices in a number of developing countries with particular attention given to illuminating a case study of Bangladesh Sustainability Accounting and Reporting Stefan Schaltegger, Martin Bennett, Roger Burritt, 2006-10-30 This is the fourth in a series publishing the best contributions on environmental management accounting EMA from around the world This volume brings together international examples of leading thinking and practice in this rapidly developing area This is the most comprehensive volume to date covering theory practice and case studies on sustainability accounting and reporting It covers tools frameworks concepts as well as case studies and empirical analysis **Research on Professional Responsibility and Ethics in Accounting** C. Richard Baker, 2021-10-11 This edition of Research on Professional Responsibility and Ethics in Accounting explores many aspects of professional responsibility and ethics in accounting including Giving Voice to Values Whistleblowing Earnings Management and Materiality *The Complexities Of Sustainability* David Crowther, Shahla Seifi, 2022-12-02 Sustainability is a topic of great interest to governments businesses and individual members of society There is a general consensus that sustainability is important and therefore needs to be addressed There is much less consensus however as to what this actually means and how it can be addressed It appears to mean different things to different people and certainly everyone has their own priorities about what needs to be addressed Consensus is difficult to find because of the complexity of what is involved in sustainability This book addresses a number of these complexities by looking at different perspectives from experts from a wide range of different disciplines and from different parts of the world The aim of the book therefore is to stimulate discussion about what needs to be prioritised as this forms an essential precursor to taking the necessary actions in order to achieve the essential sustainability for the planet This book is indexed in Scopus Environmental Issues and Social Inclusion in a Sustainable Era R. Iqbal Robbie, Ali Roziqin, Shannaz Mutiara Deniar, Ardik Praharjo, Kenny Roz, 2023-10-31 The Sustainable Development Goals SDG and the Paris Climate Agreement are examples of initiatives where countries show recognition of their interconnected interests and goals This is particularly

evident in the case of global environmental issues because they require global decision making The emergence of global environmental issues such as climate change marine pollution and biodiversity loss has brought new challenges to governance and requires political support and innovation of global public policies In addition many social problems arise because of the environmental crisis Environmental Issues and Social Inclusion in a Sustainable Era discusses environmental and social inclusion in a socio economic perspective The contributions analyse the management of global environmental problems at local national and international levels with a special focus on multilevel governance innovative public policies and economic development finance and business The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by Universitas Muhammadiyah Malang
