✓ Exclusively available on IvyPanda

Through her *Half and Half* narrative, Amy Tan describes 2 characters - namely, Rose Hsu Jordan and Ted Jordan - as experiencing marital and emotional problems. These problems emanate from the characters' wrong decisions as well as from the influence of fate. For example, fate is depicted as causing Rose and Ted's marital problems because the 2 defy their parent's opposition to the 2 people getting married. Erroneous decisions also make the 2 characters to experience problems. To illustrate, Rose suffers serious emotional hurt after she fails to watch over Bing - her youngest brother - thus leading to the latter's death by drowning. In addition, after marrying Ted, Rose allows the husband to unilaterally make all decisions, with the wife always playing second fiddle. This wrong decision works against Rose when Ted requires her to take up part of his roles. Ted is also explained to be making wrong decisions that harm him by losing all his confidence after an unsuccessful court case. Eventually, the couple's wrong decisions make them to become bitter toward each other, with Ted asking for a divorce. All in all, through the *Half and Half* story, Tan shows that the characters of Rose and Ted are victims of their wrong decisions as well as their individual fates owing to their racial disparities.

To illustrate, Rose and Ted disregard their parents' race-based objections to the couple's proposed marriage, thus depicting fate and wrong decisions jointly facilitating the characters' downfall. Mrs Jordan - Ted's mother - uses carefully-concealed racist sentiments to express her displeasure regarding her son's marriage to Rose. Likewise, An-mei Hsu - Rose's mother - voices her dissatisfaction with regard to Rose marrying Ted. The 2 youngsters however defy such parental discontent and go ahead to wed. In line with their parents' premonition, cracks appear in Rose and Ted's marriage soon after Ted loses a court case that has to do with some professional malpractice he committed (Perkins and Barbara 817). Consequently, Ted becomes depressed and loses his confidence. The racial disparities regarding mores then come to the fore. Rose does not offer Ted the necessary consolation as this is not appropriate in her Chinese culture. In turn, Ted abandons some of his decision-making responsibilities; he has been making all decisions. Rose refuses to take over some of her husband's decision-making duties because her culture does not allow her to do so. Eventually, Ted asks Rose for a divorce, a request that stuns the wife. Tan thus uses the couple's varied

*pdf deep learning for natural language processing* - Aug 03 2022

web jan 1 2018 deep learning for natural language processing advantages and challenges authors hang li discover the world's research available via license cc by 4.0 content may be subject to

**deep learning for natural language processing and language modelling** - Aug 15 2023

web sep 21 2018 the article presents an example of practical application of deep learning methods for language processing and modelling development of statistical language models helps to predict a sequence of recognized words and phonemes and can be used for improving speech processing and speech recognition

*deep learning in natural language processing springerlink* - Feb 26 2022

web deep learning in natural language processing home book editors li deng yang liu provides an up to date and comprehensive survey of deep learning research and its applications in natural language processing covers all key tasks and techniques of natural language processing

**deep learning for natural language processing springerlink** - Feb 09 2023

web jul 6 2021 deep learning is an extension of machine learning and artificial intelligence that teaches computers to learn from experiences the same as humans do many deep learning models are successfully deployed for various natural language processing tasks for the last few years

introduction to natural language processing and deep learning - Jun 01 2022

web jun 27 2018 natural language processing nlp is an extremely difficult task in computer science languages present a wide variety of problems that vary from language to language structuring or extracting meaningful information from free text represents a great solution if done in the right manner

*deep learning for natural language processing o'reilly media* - Dec 07 2022

web gain insights into the basic building blocks of natural language processing learn how to select the best deep neural network to solve your nlp problems explore convolutional and recurrent neural networks and long short term memory networks

[deep learning for natural language processing dl4nlp](#) - Jul 14 2023

web this website offers an open and free introductory course on deep learning algorithms and popular architectures for contemporary natural language processing nlp the course is constructed holistically and as self contained as possible in order to cover all of the basics required for understanding current research

**deep learning for natural language processing sciencedirect** - Apr 11 2023

web jan 1 2018 abstract in this chapter we survey various deep learning techniques that are applied in the field of natural language processing we also propose methods for computing sentence embedding and document embedding both sentence embedding and document embedding are able to capture the distribution of hidden concepts in the

**deep learning for natural language processing advantages and** - Oct 05 2022

web sep 8 2017 introduction deep learning refers to machine learning technologies for learning and utilizing deep artificial neural networks such as deep neural networks dnn convolutional neural networks cnn and recurrent neural networks rnn
