**Where the Other Half Lives** Sarah Glynn, 2009-05-20 Housing has become a hot topic The media is filled with stories of individual housing hardship and of major property related financial crises of crippling personal debts rundown social housing homelessness mass demolition spiralling prices unaffordability and global recession This book links all of these through a radical analysis that puts housing at the heart of critical economic and political debate The authors show that these problems arise from the fact that houses are no longer seen primarily as homes for living in but rather as a source of profit Case studies from the UK the US and other western countries are set into a overview of how housing has changed over the last few decades The book also examines campaigns for better housing and explores possibilities for a different approach to this most fundamental of human needs

Riis, 2011 Jacob Riis s famed 1890 photo text addressed the problems of tenement housing immigration and urban life and work at the beginning of the Progressive era David Leviatin edited this complete edition of How the Other Half Lives to be as faithful to Riis s original text and photography as possible Uncropped prints of Riis s original photographs replace the faded halftones and drawings from photographs that were included in the 1890 edition Related documents added to the second edition include a stenographic report of one of Riis s lantern slide lectures that demonstrates Riis s melodramatic techniques and the reaction of his audience and five drawings that reveal the subtle but important ways Riis s photographs were edited when they were reinterpreted as illustrations in the 1890 edition The book s provocative introduction now addresses Riis s ethnic and racial stereotyping and includes a map of New York s Lower East Side in the 1890s A new list of illustrations and expanded chronology questions for consideration and selected bibliography provide additional support
