Karl, 2017-03-02 In *The Magic of Concepts* Rebecca E Karl interrogates the economic as concept and practice as it was construed historically in China in the 1930s and again in the 1980s and 1990s Separated by the Chinese Revolution and Mao's socialist experiments each era witnessed urgent discussions about how to think about economic concepts derived from capitalism in modern China Both eras were highly cosmopolitan and each faced its own global crisis in economic and historical philosophy In the 1930s capitalism's failures suggested that socialism offered a plausible solution while the abandonment of socialism five decades later provoked a rethinking of the relationship between history and the economic as social practice Interweaving a critical historiography of modern China with the work of the Marxist trained economist Wang Yanan Karl shows how magical concepts based on dehistoricized Eurocentric and capitalist conceptions of historical activity that purport to exist outside lived experiences have erased much of the critical import of China's twentieth century history In this volume Karl retrieves the economic to argue for a more nuanced and critical account of twentieth century Chinese and

global historical practice *A History of Victims of Crime* Stephen Strauss-Walsh, 2023-05-19 This book examines the evolution of the contemporary crime victim's procedural place within modern Western societies Taking the history of the Irish crime victim as a case study the work charts the place of victims within criminal justice over time This evolves from the expansive latitude that they had during the eighteenth century to their major relegation to witness and informer in the nineteenth and back to a more contemporary recapturing of some of their previous centrality The book also studies what this has meant for the position of suspects and offenders as well as the population more generally Therefore some analysis is devoted to examining its impact on an offender's right to fair trial and social forms It is held that the modern crime victim has transcended its position of marginality This happened not only in law but as the consequence of the victim's new role as a key sociopolitical stakeholder This work flags the importance of victim rights conferrals and the social transformations that engendered such trends In this way victim re emergence is evidenced as being not just a legal change but a consequence of several more recent sociocultural transformations in our societies The book will be of interest to researchers academics and policy makers in criminal law human rights law criminology and legal history
