10 MARK QUESTION (Part a)

Step 1: Definition: Define a key word in the question

Step 2: Definition: Define another key word in the question (if there is another one)

Step 3: Definition: Define another key word in the question (if there is another one)

Step 4: Real life example: Briefly explain a real life example.

Step 5: Draw the diagram: Draw it accurately and fully labelled and with a title on top (clearly stating what it is showing, if appropriate the market, and where). Where possible, apply your example: e.g. Quantity of Oil (barrels), Price of Oil (\$).

Step 6 (i) Tell us what the diagram shows, in general. **Explain** a specific insight of **the diagram** (i.e. "As the diagram shows, the warmer weather results in a greater demand for ice cream. At Price P1, the quantity demanded increases from Q1 to Q2.")

Step 6 (ii) Tell using specific reference points on the diagram, subsequent effects, changes or knock-on effects (i.e. The rightward shift of the demand curve from D1 to D2, puts upward pressure on the price P1. This acts as a signal to producers that they can raise their price due to excess demand leading to a new price of P2).

The diagram must be **dynamic** (e.g. something has shifted, increased, decreased), use arrows for emphasis.

DO NOT ABBREVIATE ANY TERMS IN YOUR WRITTEN WORK UNTIL YOU HAVE WRITTEN THEM OUT IN FULL AT LEAST ONCE! Assume no prior knowledge of the person reading (i.e. that means they don't know what AS, PeD or GDP stand for).

15 MARK QUESTION (Part b)

Step 1: Carry out all the above steps as you would for a 10 mark question.

Do not repeat diagrams. If the diagram you need is in part (a) then refer to the diagram and the points on it in part (a).

Ownership and Governance of Companies Jonathan Michie,Vishnu Padayachee,2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics
