## Loading/Unloading Recording Media:

## System Start-up:

Your system has been configured to power on and off automatically with the vehicle's ignition, or you will control power with the small controller module pictured here. Once live video is shown on the MDC display, the system is ready to operate.

- 1) Most record activations occur automatically by activating the emergency lights. Recording can also be started by activating the Wireless Transmitter or Siren (if connected to the system), or you can manually start recording by selecting any active camera icon.   - The record icon at the top of the screen will turn red
- 3) Press the STOP button to stop all cameras recording, or press the camera icon to stop just the selected camera. If configured with Stop-Hold Classifications, they will appear on screen each time a recording is stopped, allowing you to make a selection.
