Clicks, Their Form, Function, and Their Transformation Roman Stopa, 1979 Plant Transformation Horacio Esteban Hopp, Luis Herrera-Estrella, German Spangenberg, 2022-05-10 **Religious Transformation in Maya Guatemala** John P. Hawkins, 2021-05-01 Mayas and indeed all Guatemalans are currently experiencing the collapse of their way of life This collapse is disrupting ideologies symbols life practices and social structures that have undergirded their society for almost five hundred years and it is causing rapid and massive religious transformation among the K'iche' Maya living in highland western Guatemala Many Maya are converting to Christian Pentecostal faiths in which adherents and leaders become bodily agitated during worship Drawing on over fifty years of research and data collected by field school students Hawkins argues that two factors cultural collapse and systematic social and economic exclusion explain the recent religious transformation of Maya Guatemala and the style and emotional intensity through which that transformation is expressed Guatemala serves as a window on religious change around the world and Hawkins examines the rapid pentecostalization of Christianity not only within Guatemala but also throughout the global South The pentecostal way as he describes it is ultimately an acknowledgment of the angst and insecurity of contemporary Maya **Artificial Intelligence and Soft Computing, Part II** Leszek Rutkowski, Rafał Scherer, Ryszard Tadeusiewicz, Lotfi A. Domenig, 2014-04-03 In his richly illustrated *Religion and Architecture in Premodern Indonesia* Gaudenz Domenig investigates the nature of Indonesian ethnic religions by focusing on land opening rituals sacred groves and architectural responses to the custom of presenting offerings Since deities and spirits were supposed to taste offerings on the spot it was a task of architecture to attract them and to guide them into houses where offerings were presented Domenig quotes numerous sources to show that certain material elements of the house were viewed as spirit attractors spirit ladders

or spirit pathways Various exotic features of Indonesian vernacular architecture thus become understandable as relics from times when architecture was still responding to indigenous religions practised in the archipelago

Structure and Function of Chloroplasts, Volume III Hongbo Gao,Yan Lu,Rebecca L. Roston,Alistair McCormick,2023-04-03

Contemporary Bali Agung Wardana,2019-01-25 This book offers a comprehensive examination of spatial and environmental governance in contemporary Bali In the era of decentralisation Bali s eight district governments and one municipality acquired a strong sense of authority to extract revenues from within their territorial borders while disregarding the impacts beyond them which has exacerbated environmental cultural and institutional issues These issues are addressed through reorganising space In reality however such re organisation has predominantly been in order to provide space for tourism investments and market expansion The outcomes of reorganising space are in fact shaped by the dynamics of power that interface with increasingly complex legal and institutional structures These complex structures provide more arenas for vested interests to manoeuvre but at the same time provide different forms of legitimacy for local forces to challenge the dominant process The book demonstrates the mechanisms through which social actors mobilise legal institutional arrangements to advance their interests

Free Convection Film Flows and Heat Transfer De-Yi Shang,2013-04-09 This book presents recent developments in our systematic studies of hydrodynamics and heat and mass transfer in laminar free convection accelerating film boiling and condensation of Newtonian fluids as well as accelerating film flow of non Newtonian power law fluids FFNF These new developments provided in this book are i novel system of analysis models based on the developed New Similarity Analysis Method ii a system of advanced methods for treatment of gas temperature dependent physical properties and liquid temperature dependent physical properties iii the organically combined models of the governing mathematical models with those on treatment model of variable physical properties iv rigorous approach of overcoming a challenge on accurate solution of three point boundary value problem related to two phase film boiling and condensation and v A pseudo similarity method of dealing

with thermal boundary layer of FFNF for greatly simplifies the heat transfer analysis and numerical calculation A system of practical application equations on heat and mass transfer are provided in each chapter which are formulated based on the rigorous numerical solutions with consideration of variable physical properties In addition in the second edition other new research developments are further included on resolving an even big challenge associated with investigations of laminar free film condensation of vapour gas mixture They involve the novel methods for treatment of concentration and temperature dependent physical properties of vapour gas mixture and for rigorous solution of interfacial vapour saturation temperature which have lead to rigorous analysis and calculation results on two phase film flow velocity temperature and concentration fields as well as condensate heat and mass transfer Handbook of Antennas in Wireless Communications Lal Chand

Godara,2018-10-03 The move toward worldwide wireless communications continues at a remarkable pace and the antenna element of the technology is crucial to its success With contributions from more than 30 international experts the Handbook of Antennas in Wireless Communications brings together all of the latest research and results to provide engineering professionals and students with a one stop reference on the theory technologies and applications for indoor hand held mobile and satellite systems Beginning with an introduction to wireless communications systems it offers an in depth treatment of propagation prediction and fading channels It then explores antenna technology with discussion of antenna design methods and the various antennas in current use or development for base stations hand held devices satellite communications and shaping beams The discussions then move to smart antennas and phased array technology including details on array theory and beamforming techniques Space diversity direction of arrival estimation source tracking and blind source separation methods are addressed as are the implementation of smart antennas and the results of field trials of systems using smart antennas implemented Finally the hot media topic of the safety of mobile phones receives due attention including details of how the human body interacts with the electromagnetic fields of these devices Its logical development and extensive range of diagrams figures and photographs make this handbook easy to follow and provide a clear understanding of design techniques and the performance of finished products Its unique comprehensive coverage written by top experts in their fields promises to make the Handbook of Antennas in Wireless Communications the standard reference for the field *Fashioning the*

Afropolis Kerstin Pinther,Kristin Kastner,Basile Ndjio,2022-07-14 A revelation Reclaiming fashion from its European history Shane White With a focus on sub Saharan Africa *Fashioning the Afropolis* provides a range of innovative perspectives on global fashion design dress photography and the body in some of the major cities with a focus on Lagos Johannesburg Dakar and Douala It contributes to the ongoing debates around the globalization of fashion and fashion theory by exploring fashion as a genuine urban phenomenon on the continent and among its diasporas To date fashion and city have not been systematically related to each other in the African context and for too long a western centric gaze has dominated scholarship resulting in the perception of Africa as provincial and its visual arts and textile cultures as static and folkloristic This

perspective is all the more distorted given Africa's rich sartorial past. With a huge number of tailors ready to adapt and renew clothing, reshaping garments into contemporary styles and many cities in Africa becoming hot spots for a steadily growing and well connected scene of fashion designers in the past 20 years the time is ripe for a reevaluation and reconsideration of the fashionscapes of Africa. Leading scholars offer an updated empirical and theoretical foundation on which to base new and exciting research on sub-Saharan fashion, challenging perceptions and offering new insights.

Intelligent Tools for Building a Scientific Information Platform Robert Bembenik, Lukasz Skonieczny, Henryk Rybinski, Marzena Kryszkiewicz, Marek Niezgodka, 2013-01-12. This book is a selection of results obtained within two years of research performed under SYNAT, a nation wide scientific project aiming at creating an infrastructure for scientific content storage and sharing for academia, education and open knowledge society in Poland. The selection refers to the research in artificial intelligence, knowledge discovery and data mining, information retrieval and natural language processing, addressing the problems of implementing intelligent tools for building a scientific information platform. This book is a continuation and extension of the ideas presented in *Intelligent Tools for Building a Scientific Information Platform* published as volume 390 in the same series in 2012. It is based on the SYNAT 2012 Workshop held in Warsaw. The papers included in this volume present an overview and insight into information retrieval, repository systems, text processing, ontology based systems, text mining, multimedia data processing and advanced software engineering.

Peaceful Action, Open Heart Thich Nhat Hanh, 2005-01-09. A landmark work by Thich Nhat Hanh, this book shines 60 years of study and practice upon one of the crowning scriptures of Buddhism, the Lotus Sutra. The Lotus Sutra is one of the most revered of Mahayana sacred texts and is sometimes called the king of sutras. Despite this fact, there are very few commentaries in English available today. In *Peaceful Action, Open Heart*, Thich Nhat Hanh explores the Sutra's main theme: that everyone has the capacity to become a Buddha and that Buddha nature is inherent in everything. But he also uniquely emphasizes the Sutra's insight that Buddha nature is the basis for peaceful action. Since we all will one day become a Buddha, he says, we can use mindfulness practices right now to understand and find solutions to current world challenges. In his interpretation of the Sutra, he suggests that if the practices, views and insights of the Lotus Sutra would find application not only by individuals but also by nations, it would offer concrete solutions to transform individual suffering and the global challenges facing the world today. Stamped with his signature depth of vision, lucidity and clarity, Thich Nhat Hanh's insights invoke a wide range of contemporary topics and concerns, such as the Palestinian-Israeli war, the threat of terrorism and the degradation of our environment. In proposing radical new ways of finding peaceful solutions to universal contemporary conflicts, he not only challenges the United Nations to change from an organization to a real organism working for peace and harmony in the world, but also encourages all branches of all governments to act as Sangha. In so doing, he demonstrates the practical and direct applicability of this sacred text to today's concerns. This book has been re-released with a new title. The earlier hardcover edition was entitled *Opening*.
