proliferation in the UK of publicly available codes normally lacking a basis in statute providing official accounts of a variety of different features of UK constitutional rules and principles They cover institutions ranging from the Cabinet to the Civil Service to the judiciary and relationships between entities such as central government and the devolved executives and between the UK executive and the Westminster Parliament Among them are prominent texts such as the Ministerial Code the Cabinet Manual the Guide to Judicial Conduct and the devolution Memorandum of Understanding as well as more obscure documents that nonetheless contain important stipulations regarding the operation of the system Similar developments have taken place in countries including Australia Canada and New Zealand The author explores the history of this phenomenon in the UK how it functions today here and elsewhere in the Commonwealth and its implications for the UK constitution
