Minternational Jan 2014 Paper

Kjell Engelbrekt

Minternational Jan 2014 Paper:

In Whose Name? Armin von Bogdandy, Ingo Venzke, 2014 The vast majority of all international judicial decisions have been issued since 1990 This increasing activity of international courts over the past two decades is one of the most significant developments within the international law It has repercussions on all levels of governance and has challenged received understandings of the nature and legitimacy of international courts It was previously held that international courts are simply instruments of dispute settlement whose activities are justified by the consent of the states that created them and in whose name they decide However this understanding ignores other important judicial functions underrates problems of legitimacy and prevents a full assessment of how international adjudication functions and the impact that it has demonstrably had This book proposes a public law theory of international adjudication which argues that international courts are multifunctional actors who exercise public authority and therefore require democratic legitimacy It establishes this theory on the basis of three main building blocks multifunctionality the notion of an international public authority and democracy The book aims to answer the core question of the legitimacy of international adjudication in whose name do international courts decide It lays out the specific problem of the legitimacy of international adjudication and reconstructs the common critiques of international courts It develops a concept of democracy for international courts that makes it possible to constructively show how their legitimacy is derived It argues that ultimately international courts make their decisions even if they do not know it in the name of the peoples and the citizens of the international community

days of early independence to the present day Based on interviews with treaty negotiators policymakers and lobbyists as well as observation at intergovernmental meetings archival research and fieldwork in Africa and Asia Imposing Standards shows that capacity constraints and imperfect negotiation strategies in developing countries were exploited by capital exporting states shielding multinationals from taxation and depriving nations in the Global South of revenue they both need and deserve Thanks to generous funding from the Gates Foundation the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories

Norm Contestation Betsy Jose, 2017-12-02 This Brief uses the theory of norm contestation as a model for understanding variation in norm related behavior in international relations While most typical approaches to understanding norms view norms as stable structures and actor responses to them as unquestioned in a global political climate where departures from expected behavior may occur a more nuanced model is needed By using a norm contestation framework that highlights norm fluidity and actor agency this book expands the discussion providing insight into divergent interpretations of norm violation and compliance and the dynamic nature of norms The first two chapters introduce the norm contestation model explain how it contributes to the literature on norm violations and discuss the reasons for the cases discussed Chapters Three and Four provide detailed case studies of the mechanisms of norm contestation as they apply to the civilian immunity and non intervention norms Chapter Five concludes by reconnecting the norm contestation model to the case studies and describing how it can be applied to norms other than those regulating armed conflict It also discusses policy implications and avenues for future research As such this book will appeal to students and researchers working broadly on issues related to international relations theory armed conflict security studies humanitarianism human rights international law and global governance It will also be of interest to policy makers and practitioners interested in influencing the normative behavior of actors in diverse arenas

High-Table Diplomacy Kjell Engelbrekt, 2016-06-10 The proliferation of minilateral summits is reshaping how international security problems are addressed yet these summits remain a poorly understood phenomenon In this groundbreaking work Kjell Engelbrekt contrasts the most important minilateral summits the G7 formerly G8 and G20 with the older and more formal UN Security Council to assess where the diplomacy of international security is taking place and whether these institutions complement or compete with each other Engelbrekt's research in primary source documents of the G7 G8 G20 and UN Security Council provides unique insight into how these institutions deliberate on three policy areas conflict management counterterrorism cooperation and climate change mitigation Relatively informal and flexible GX diplomacy invites more countries to take a seat at the table and allows nontraditional security threats to be placed on the agenda Engelbrekt concludes however that there is a continuing need for institutions like the UN to address traditional security problems High Table Diplomacy will provoke discussion and further research on the role of minilateral summits among scholars of international relations security studies and international organizations **The Participation of Victims**

in International Criminal Proceedings Alessandra Cuppini, 2022-09-30 This book argues that the expressivist justice model provides a meaningful foundation for the participation of victims in international criminal proceedings Traditional criminal justice theories have tended to marginalise the role afforded to victims while informing the criminal procedures utilised by international criminal courts As a result giving content to shaping and enhancing victims participatory rights have been some of the most debated issues in international criminal justice This book contributes to this debate by advancing expressivism which has the capacity to create a historical narrative of gross human rights violations as a core of international criminal justice able to provide a worthwhile basis for the participation of victims in proceedings and clarifying the scope and content of their participatory rights The work provides an in depth discussion on issues related to victims participatory rights from the perspective of international human rights law victimology and the philosophical foundation of international criminal justice The book will be a valuable resource for researchers academics and policymakers working in the areas of international criminal justice international human rights law transitional justice and conflict studies The Financial Review, 1908 Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal, 1908 Feminist Engagement with International Criminal Law Eithne Dowds, 2020-01-23 This work introduces and further develops the feminist strategy of norm transfer the proposal that feminist informed standards created at the level of international criminal law make their way into domestic contexts Situating this strategy within the complementarity regime of the International Criminal Court ICC it is argued that there is an opportunity for dialogue and debate around the contested aspects of international norms as opposed to uncritical acceptance The book uses the crime of rape as a case study and offers a new perspective on one of the most contentious debates within international and domestic criminal legal feminism the relationship between consent and coercion in the definition of rape In analysing the ICC definition of rape it is argued that the omission of consent as an explicit element is flawed Arguing that the definition is in need of revision to explicitly include a context sensitive notion of consent the book goes further setting out draft legislative amendments to the ICC Elements of Crimes definition of rape and its Rules of Procedure and Evidence Turning its attention to the domestic landscape the book drafts amendments to the United Kingdom UK Sexual Offences Act 2003 and to the Youth Justice and Criminal Evidence Act 1999 thereby showing how the revised version of the ICC definition can be applied in context of the UK Protection of Civilians and Individual Accountability Lenneke Sprik, 2019-08-13 This book explores the question of whether peacekeeping commanders can be held accountable for a failure to protect the civilian population in the mission area This requires an assessment of whether peacekeeping commanders have an obligation to act against such serious crimes being committed under domestic and international law The work uses the cases of the Dutch and Belgian peacekeeping commanders in Srebrenica and Kigali as examples but it also places the analysis into the context of contemporary peacekeeping operations It unfolds two main arguments First it provides a critical note to the contextual interpretation given to international law in

relation to peacekeeping It is argued that establishing a specific paradigm for peacekeeping operations with clear rules of interpretation and benchmark criteria would benefit peacekeeping and international law by making the contextual interpretation of international law redundant Second it is held that alternative options to the existing forms of criminal responsibility for military commanders should be considered possibly focusing more clearly on failing to fulfil a norm of protection that is specific to peacekeeping and distinct from protective obligations under international human rights law and international humanitarian law
