

A Quick Guide to Getting Started

Before you begin

1. Remove all packaging material and tape.
2. Make sure your burner caps are centered on the burners and installed correctly.
3. Place the center cooktop grate first, then position the left and right grates in place. Refer to your Use & Care Manual for detailed instructions.

Burner Cap Installation

All burner caps must be properly installed before first use to ensure proper ignition and gas flame size.

1. Check to see if the size of each burner cap matches the size of the burner head.
2. Make sure that the burner caps are correctly in place on the burner heads.

The burner cap should fit snugly into the center of burner head and be level.

3. Once in place, check the fit by gently sliding the burner cap from side to side.

NOTE: We recommend contacting a professional installer or technician if you need to convert your cooktop to liquefied petroleum (LP) from natural gas.
