**Language Learning Before Adulthood** Vanessa De Wilde,Claire Goriot,2022-10-24 Researchers have looked into the role of individual differences in second language learning and found that differences between learners in areas such as language aptitude language learning motivation and exposure to the language influence second language learning Most of this research concerned adults Far fewer studies have addressed the role of individual differences in second language learning of young learners As second language learning programmes tend to start earlier than before and children are nowadays frequently exposed to a foreign language in social settings such as online games and social media studying the role of individual differences in young learners can contribute both to SLA theories and to evidence based L2 education This book discusses recent findings concerning the role of individual differences in language learning in young learners The chapters in the book concern different topics linked to internal individual differences such as language aptitude motivation attitude and

external individual differences such as exposure and type of instruction the relative contribution of internal and external factors to language learning and the interplay between the two types of individual differences

**Teaching on Assessment**

Sharon L. Nichols, Divya Varier, 2021-03-01

In an age where the quality of teacher education programs has been called into question it is more important than ever that teachers have a fundamental understanding of the principles of human learning motivation and development

Theory to Practice Educational Psychology for Teachers and Teaching is a series for those who teach educational psychology in teacher education programs

At a time when educational psychology is at risk of becoming marginalized it is imperative that we as educators walk our talk in serving as models of what effective instruction looks like

Each volume in the series draws upon the latest research to help instructors model fundamental principles of learning motivation and development to best prepare their students for the diverse multidimensional uncertain and socially embedded environments in which these future educators will teach

The inaugural volume Teaching on Assessment is centered on the role of assessment in teaching and learning

Each chapter translates current research on critical topics in assessment for educational psychology instructors and teacher educators to consider in their teaching of future teachers

Written for practitioners the aim is to present contemporary issues and ideas that would help teachers engage in meaningful assessment practice

This volume is important not only because of the dwindling presence of assessment related instructional content in teacher preparation programs but also because the policy changes in the last two decades have transformed the meaning and use of assessment in K 12 classrooms

Praise for Teaching on Assessment

This thought provoking book brings together perspectives from educational psychology and teacher education to examine how assessment can best support student motivation engagement and learning

In the volume editors Nichols and Varier present a set of chapters written by leaders in the field to examine critical questions about how to best prepare teachers to make instructional decisions understand assessment within the context of learning and motivation theory and draw on assessment in ways which can meet the needs of diverse learners

Written in a highly accessible language and style each chapter contains clear takeaway messages designed for educational psychologists teacher educators teachers and pre service teachers

This book is essential reading for anyone involved in teaching or developing our future teaching professionals

Lois R Harris Australian Catholic University

This impressive book provides a wealth of contemporary and engaging resources ideas and perspectives that educational psychology instructors will find relevant for helping students understand the complexity of assessment decision making as an essential component of instruction

Traditional assessment principles are integrated with contemporary educational psychology research that will enhance prospective teachers decision making about classroom assessments that promote all students learning and motivation

It is unique in showing how to best leverage both formative and summative assessment to boost student engagement and achievement enabling students to understand how to integrate practical classroom constraints and realities with current knowledge about self regulation intrinsic motivation and other psychological constructs

that assessment needs to consider The chapters are written by established experts who are able to effectively balance presentation of research and theory with practical applications Notably the volume includes very important topics rarely emphasized in other assessment texts including assessment literacy frameworks diversity equity assessment strategies for students with special needs and data driven decision making The book will be an excellent supplement for educational psychology classes or for assessment courses introducing students to current thinking about how to effectively integrate assessment with instruction James McMillan Virginia Commonwealth University [Approaches to Inclusive English Classrooms](#) Kate Mastruserio Reynolds,2015-03-02 This book provides educators with an accessible guide to best practices concerning content based instruction CBI models and their use in English learner inclusive classrooms The author effectively bridges the gap between theory and practice with a critical analysis of practical examples and diverse strategies for the inclusion of English learners into K 12 general education courses The book also raises controversial questions regarding who is qualified to teach English learners and who is responsible for doing so looking at the difficulties faced by both general educators and ESL teachers in Inclusive Classrooms By providing a lens through which both ESL teachers and general educators are able to analyze compare and contrast a range of widely employed CBI methods this book allows teachers to make informed decisions in their EL program development and work with English learners in K 12 schools [Annual Report](#),1929 *Bilingualism in Schools and Society* Sarah J. Shin,2017-07-28 This revised edition of *Bilingualism in Schools and Society* is an accessible introduction to the sociolinguistic and educational aspects of and the political issues surrounding bilingualism including code switching in popular music advertising and online social spaces It also addresses the personal aspect of the topic in a well informed discussion of what it means to study and live with multiple languages in a globalized world and practical advice on raising bilingual children Extensive new material has been added that deals with more holistic understandings of bilingual performance including translanguaging flexible bilingualism and code meshing blending standard and vernacular languages dialects in hybrid texts and recent developments in policies surrounding the education of English Learners and EL assessment including Common Core State Standards CCSS PARCC and SBAC testing WIDA and ELPA21 language assessments and Every Student Succeeds Act ESSA Updated and new discussions on community based heritage language programs and super diversity further enhance this new edition along with updated statistics on bilingual populations and the world s top languages Each chapter includes lists of further readings helpful digital resources and study questions as well as student activities and boxed vignettes Firmly grounded in the analysis of empirical work with bilingual children and adults in various multilingual settings throughout the world *Bilingualism in Schools and Society* is the ideal text for courses on bilingualism in language education programs *The Handbook of Bilingual and Multilingual Education* Wayne E.
