, A History Of England From The First Invasion By The Romans John Lingard,1825 The History of England, from the First Invasion by the Romans John Lingard,1823 The History of England, from the First Invasion by the Romans to the Accession of William and Mary in 1688 John Lingard,1849 **An Introduction to the Mythology of the Greeks and Romans, etc** Mrs. MEEK (of Didsbury.),1827 **Antiquity, Rome and Christian era** P. L. Jacob,1926 Rewriting 'Les Mystères de Paris' Amy Wigelsworth,2016-05-26 Key works of popular fiction are often rewritten to capitalize on their success But what are the implications of this rewriting process Such is the question addressed by this detailed study of several rewritings of Eugène Sue's *Mystères de Paris* 1842-43 produced in the latter half of the nineteenth century in response to the phenomenal success of Sue's archetypal urban mystery Pursuing a compelling analogy between city and text and exploring the resonance of the palimpsest trope to both Amy Wigelsworth argues that the *mystères urbains* are exemplary rewritings which shed new light on contemporary reading and writing practices and emerge as early avatars of a genre still widely consumed and enjoyed in the 21st century Histoire Universelle de Jacques Auguste De Thou, 13 Jacques Auguste De Thou,1734 *Between Rome and Babylon* Aharon Oppenheimer,Aharon Oppenheimer,2005 *Between Rome and Babylon* includes over thirty papers by Aharon Oppenheimer about Jewish life in Palestine and Babylonia in the period of the Mishnah and the Talmud 1st-4th centuries dealing with leadership and society political and military activity relations with the authorities and historical geography The collection is organized around three interconnected themes 1 Roman Palestine and its Environs 2 The Bar Kokhba Revolt 3 Babylonia Judaica About two thirds of the papers were originally published in Hebrew They have been selected and edited for this collection and translated for the first time into English or German The rest of the papers originally appeared in various different languages and contexts and they too have been selected and edited to fit the three themes Cross references have been added as well as detailed indices The aim of the papers is to cast light on Jewish history by extracting methodically historical meaning from Talmudic sources taking into account when they were written where they were edited and how far they can be presumed authentic and by looking at them in combination with Greek Roman Persian and Arabic written sources as well as relevant archaeological finds **The Literary Policy of Rome Exhibited in an Account of Her Damnatory Catalogus Or Indexes Etc. 2. Edition Much Enlarged** Joseph Mendham,1830 *The Literary Policy of the Church of Rome Exhibited* Joseph Mendham,1830 Second Supplement to the Catalogue of Books in the Mercantile Library of the City of New York Anonymous,2023-03-29 Reprint of the original first published in 1872 **The Athenaeum** ,1838 **Biographie Universelle, Ancienne Et Moderne** ,1857 **Rural Writing** Mauricette Fournier,2019-01-17 If as a corollary of urbanization many artists seized as early as the nineteenth century and most of the twentieth century the city as object and scene of their reflection on a world under construction it was not the same for rural areas Generally speaking until recently the countryside's representations have been shaped by the

writings of a ruling class However in recent decades alongside the country novels or terroir novels that follow in line with the rustic current initiated in the nineteenth century more demanding literary productions have emerged These writings often fed by the sense of loss and the end of a certain agricultural lifestyle are also exploring the contemporary reconstructions of rural areas little publicized They redefine a new regionality less militant and certainly less connoted in its nostalgic link to the land This book revisits rural areas and their representations in contemporary writing in both popular and high culture in order to draw a global landscape of current rural areas and new regionalities

Reference Catalogue of Current Literature, 1924 **Tombs in and near Rome. 10. Sculpture** John Henry Parker, 1877 *French Orientalist Literature in Algeria, 1845-1882* Sage Goellner, 2018-03-06 This book applies the growing theoretical field of hauntology to a body of literature which has previously been examined through the lenses of Orientalism and exoticism Through a chronological study and close readings of the writings of Thophile Gautier Eugène Fromentin Gustave Flaubert and Pierre Loti the project identifies haunting echoes within the texts which demonstrate an ambivalence of attitudes towards colonialism and which undermine any claim towards a monolithic imperialist French ideology Whereas hauntological theory has been used to illuminate literature from the Francophone post colonial period it has not yet been applied to texts produced during the French colonial period The originality of this project thus lies in the application of Derridean hauntological theory to works from an earlier period each of which in one way or another addresses the theme of colonial violence By revisiting four classic works of colonial Orientalism with haunting as a principal theme this analysis provides a critical witnessing of France's violent colonization of Algeria that demonstrates France's latent anxieties about the colonial project at the time *The archaeology of Rome. 12 pt.
