Struggle Rob Shields, 2005-07-22 Lefebvre Love and Struggle provides the only comprehensive guide to Lefebvre's work. It is an accessible introduction to one of the most significant European thinkers of the twentieth century. Rob Shields draws on the full range of Lefebvre's writings including many previously untranslated and unpublished works and correspondence. Topics covered include Lefebvre's early relationship with Marxism, his critique of the rise of fascism as well as his Critique of Everyday Life and the significant work on urban space for which he is best known today. *After the Deluge* François Dosse, 2004-11-17 Madame de Pompadour's famous quip 'Après nous le déluge' serves as fitting inspiration for this lively discussion of postwar French intellectual and cultural life. Over the past thirty years, North American and European scholarship has been significantly transformed by the absorption of poststructuralist and postmodernist theories from French thinkers. But Julian Bourg's seamlessly edited volume proves that historically speaking, French intellectual and cultural life since World War Two has involved much more than a few infamous figures and concepts. Motivated by a desire to narrate and contextualize the deluge of French theory, *After the Deluge* showcases recent work by today's brightest scholars of French intellectual history that historicizes key debates, figures, and turning points in the postwar era of French thought. Relying on primary and archival sources, contributors examine among other themes: left-wing critiques of the Left, the internationalizing of thought, the institutional and affective conditions of cultural life, and the religious imagination. They revive neglected debates and figures and they explore the larger impact of political quarrels. In an afterword, preeminent French historian François Dosse heralds the arrival of a new generation, a historiographical sensibility that brings fresh, original perspectives and a passion for French history to the contemporary French intellectual arena. *After the Deluge* adds significant depth and breadth to our understanding of postwar French intellectual and cultural history. *Henri Lefebvre on Space* Lukasz Stanek, 2011 Shows how Lefebvre's theory of space developed out of direct engagement with architecture, urbanism, and urban sociology. **Becoming Marxist** Ted Stolze, 2019-01-04 In *Becoming Marxist*, Ted Stolze offers a series of studies that take up the importance of philosophy for the development of an open and critical Marxism. He argues that an adequate philosophy for Marxism must be open to engagement with a diverse range of traditions, texts, and authors, from Paul of Tarsus via Averroes, Spinoza, and Hobbes to Althusser, Deleuze, Negri, Habermas, and so on. Ted Stolze also explores such practical contemporary issues as the politics of self-emancipation, the nature of Islamophobia, and climate change. *La philosophie comme un roman* Laurence Hansen-Löve, 2014-09-12 T00:00:00-04:00 L'histoire de la philosophie est une œuvre collective qui s'étale sur une longue période. Les chapitres s'enchaînent sans avoir été coordonnés. Aussi, l'enjeu pour chaque nouvelle génération est de se réapproprier cette histoire. Les auteurs du présent ouvrage nous proposent une manière originale d'y arriver. Par le dialogue, les philosophes de la tradition semblent revivre pour faire le point sur leur cheminement. Socrate, Kant, Marx, Arendt et bien d'autres répondent aux questions de Laurence Hansen-Löve et Fabien Lamouche. Au fil de ces conversations imaginaires, nous découvrons comment l'esprit de résistance a pu s'incarner, travers les figures de penseurs.

aussi profonds que subtils et aussi novateurs qu'insoumis Michel Henry Jean-François Lavigne, 2006 Contributions à l'étude de la phénoménologie de la vie et des travaux du philosophe sur l'essence de la manifestation, l'affectivité, la phénoménologie de la corporité et l'incarnation, l'autorvélation et l'autodonation de la vie, la phénoménologie matérielle et la phénoménologie de l'invisible ainsi que d'autres conceptions novatrices concernant l'essence et la vie

Postcolonial Thought in the French Speaking World Charles Forsdick, David Murphy, 2022-04-01 In the late 1990s Postcolonial Studies risked imploding as a credible area of academic enquiry. Repeated anthologization and an overemphasis on the English language literatures led to sustained critiques of the field and to an active search for alternative approaches to the globalized and transnational formations of the postcolonial world. In the early twenty-first century, however, postcolonial began to reveal a new openness to its comparative dimensions. French language contributors to postcolonial debate such as Édouard Glissant and Abdelkebir Khatibi have recently risen to greater prominence in the English speaking world and there have also appeared an increasing number of important critical and theoretical texts on postcolonial issues written by scholars working principally on French language material. It is to such a context that this book responds. Acknowledging these shifts, this volume provides an essential tool for students and scholars outside French departments seeking a way into the study of Francophone colonial postcolonial debates. At the same time, it supplies scholars in French with a comprehensive overview of essential ideas and key intellectuals in this area.

Left Hemisphere Razmig Keucheyan, 2013-07-02 As the crisis of capitalism unfolds, the need for alternatives is felt ever more intensely. The struggle between radical movements and the forces of reaction will be merciless. A crucial battlefield where the outcome of the crisis will in part be decided is that of theory. Over the last twenty-five years, radical intellectuals across the world have produced important and innovative ideas. The endeavour to transform the world without falling into the catastrophic traps of the past has been a common element uniting these new approaches. This book, aimed at both the general reader and the specialist, offers the first global cartography of the expanding intellectual field of critical contemporary thought. More than thirty authors and intellectual currents of every continent are presented in a clear and succinct manner. A history of critical thought in the twentieth and twenty-first centuries is also provided, helping to situate current thinkers in a broader historical and sociological perspective.

Woman: History and Critique of a Polemical Concept Paola Rudan, 2023-08-28 The book follows the movements of the concept of woman from the Early Modern to the postcolonial age through the words of women who challenged its patriarchal definition. The concept of woman is doubly polemical. It affirms sexual difference as political difference while denying the universal character of modern political concepts which represent the unity of the political and social order, exposing its fundamental division. At the same time, woman is a concept marked by differences of race, class, culture that continually redetermine its content. To make the history of the concept of woman is thus to affirm a different perspective on history itself, a partial perspective that lays the groundwork for the feminist critique of the present.
