Student Instrumental Course is a course for individual instruction and class instruction of like instruments at three levels for all band instruments. Each book is complete in itself but all books are correlated with each other. Although each book can be used separately, all supplementary books should be used as companion books with the method Listen Up! Brent M. Gault, 2016-04-05 In Listen Up, author Brent Gault approaches listening instruction by actively using other musical behaviors: singing, moving, chanting, creating, and aural, visual, and kinesthetic learning modes. This, in turn, becomes a way to foster in young children a deeper, more meaningful connection with musical material while, at the same time, strengthening their active listening skills. The book provides teachers with a compendium of sample experiences that utilize music listening excerpts not only to offer an opportunity to listen to select pieces of music but to also reinforce given musical concepts: rhythm, melody, form, that are made prominent in the selections. While teachers may use Gault's examples exactly as they stand, Gault also provides an opening section of strategies that they may use to develop their own listening lessons based on the ones in the book, with the hope that they will develop their own strategies and lessons in the future. A key selling point for Listen Up is its dedicated companion website of slides for each lesson with visual material that students can view and respond to as they listen. An innovative and engaging book and website resource, Listen Up will be of practical interest to elementary music specialists for use in music classrooms. The book will also be a resource for methods teachers working with pre-service music educators in addition to music education undergraduate and graduate students preparing to teach music at the elementary level.
