Active Reading**Section: How Population Change Is Measured**

Read the passage below and answer the questions that follow.

Over time, the growth rate of population change has been both very high and extremely inconsistent. In fact, almost every nation's policies, especially in the third world, were geared toward low birth rates, resulting in a dramatic drop in the average fertility rate. In fact, in population growth studies, the fact that in most parts of the world, particularly in the developing world, was that there was a young population population. After that, a new population was rapidly growing. In fact, the population was not only growing, but also population was growing.
