Childbirth as a Metaphor for Crisis Claudia D. Bergmann,2009-03-13 Crises and catastrophes of all kinds have always confronted humans with great challenges The present study examines the question of how literary texts process and deal with these challenges through the imaginary world of metaphors It concentrates on the metaphor of childbirth which compares people racked with crisis to women in labour and sometimes vice versa The texts examined are taken from the Ancient Orient and the Old Testament together with a text exemplar from the Qumran corpus which takes up the metaphor of childbirth and develops it further

The Womb and the Simile of the Woman in Labor in the Hebrew Bible Karen Langton,2024-10-30 This book explores figurative images of the womb and the simile of a woman in labor from the Hebrew Bible problematizing previous interpretations that present these as disparate images and showing how their interconnectivity embodies relationship with YHWH In the Hebrew Bible images of the womb and the pregnant body in labor do not co occur despite being grounded in an image of a whole pregnant female body the pregnant body is instead fragmented into these two constituent parts and scholars have continued to interpret these images separately with no discussion of their interconnectivity In this book Langton explores the relationship between these images inviting readers into a wider conversation on how the pregnant body

functions as a means to an end a place to access and seek a relationship with YHWH Readers are challenged and asked to rethink how these images have been interpreted within feminist scholarship with womb imagery depicting YHWH's care for creation or performing the acts of a midwife and the pregnant body in labor as a depiction of crisis Langton explores select texts depicting these images focusing on the corporeal experience and discussing direct references and allusions to the physicality of a pregnant body within these texts This approach uncovers ancient and current androcentric ideology which dictates that conception gestation and birth must be controlled not by the female body but by YHWH The Womb and the Simile of the Woman in Labor in the Hebrew Bible is of interest to students and scholars working on the Hebrew Bible gender in the Bible and the Near East more broadly and feminist biblical criticism **Handbook of Community**

Movements and Local Organizations Ram A. Cnaan, Carl Milofsky, 2007-12-18 Although the way associations and the organization of local social life are intertwined is one of the oldest approaches to community study the way citizens and residents come together informally to act and solve problems has rarely been a primary focus Associations are central to important and developing areas of social theory and social action This handbook takes voluntary associations as the starting point for making sense of communities It offers a new perspective on voluntary organizations and gives an integrated yet diverse theoretical understanding of this important aspect of community life Resources in Education, 1994
