Fateful Choices Ten Decisions That Changed The World 1940 1941 Ian Kershaw:

Fateful Choices Ian Kershaw, 2007 Dramatically recreates a sequence of ten decisions made by six major leaders between May 1940 and December 1941 that reshaped human destiny from Churchill's war cabinet's choice to continue fighting after the German blitzkrieg defeat of France and Hitler's attack on the Soviet Union to Hitler's declaration of war on the U S and his subsequent decision to eliminate Jewish citizens **SUMMARY - Fateful Choices: Ten Decisions That Changed The World, 1940-1941 By Ian Kershaw** Shortcut Edition, 2021-06-20 Our summary is short simple and pragmatic It allows you to have the essential ideas of a big book in less than 30 minutes By reading this summary you will discover how the decisions of the rulers of the great countries between 1940 and 1941 were decisive in shaping our world You will also discover that the decision of the United States to break out of its isolationism was a determining factor in the Allied victory that the United Kingdom nearly negotiated with Hitler after the defeat of France in June 1940 that the process of exterminating the Jews was much more complex than Mein Kampf announced how Stalin was able to remain deaf to the warnings of Nazi Germany's imminent invasion of the USSR Between 1940 and 1941 the war was not yet global but was approaching it dangerously Ian Kershaw an eminent historian and professor at the University of Sheffield specializes in modern and contemporary history Here he revisits a crucial page in our history Indeed the destiny of the world could have been quite different if certain decisions had not been taken These choices had a strong impact both on the Allies and the Axis side What are the positions taken during those dark years that shaped the world as you know it Buy now the summary of this book for the modest price of a cup of coffee Fateful Choices, 2007 The Leadership, Direction and Legitimacy of the RAF Bomber Offensive from Inception to 1945 Peter Gray, 2012-05-31 An examination of the strategic leadership and legitimacy of the RAF bombing offensive against Germany in the Second World War **Japan Runs Wild, 1942-1943** Peter Harmsen, 2020-05-12 The author of Storm Clouds Over the Pacific 1931 1941 chronicles Japan's dramatic reversal of fortune as Allied forces gained advantage during WWII In early 1942 the Imperial Japanese Army and Navy were advancing on all fronts humiliating Allied forces throughout the Pacific In a matter of months Japan had conquered an area larger than Hitler's empire at its apex Hawaiians and Australians feared a future under Hirohito The fate of half of mankind was hanging in the balance But by the end of 1943 the tables had turned entirely The American led military machine had kicked into gear and the Japanese were fighting a defensive battle along a frontline that crossed thousands of miles of land and sea In Japan Runs Wild 1942 1943 historian Peter Harmsen details the astonishing transformation that took place in that period setting the Allies on a path to ultimate victory over Japan The second installment of Peter Harmsen's three part history Japan Runs Wild 1942 1943 continues his comprehensive chronicle of the Pacific Theater during the Second World War Giving due emphasis to the Japanese American struggle Harmsen also sheds light on the other peoples involved including the British Australians Soviets Filipinos Indians and Koreans Above all the central importance of China is highlighted in a way that no previous general

Klemann, Sergei Kudryashov, 2013-05-09 What were the consequences of the German occupation for the economy of occupied Europe After Germany conquered major parts of the European continent it was faced with a choice between plundering the suppressed countries and using their economies to supply its needs The choices made not only differed from country to country but also changed over the course of the war Individual leaders the economic needs of the Reich the military situation struggles between governors of occupied countries and Berlin officials and finally racism all had an impact on the outcome In some countries the emphasis was placed on production for German warfare which kept these economies functioning New research presented for the first time in this book shows that as a consequence the economic setback in these areas was limited and therefore post war recovery was relatively easy However in other countries plundering was more characteristic resulting in partisan activity a collapse of normal society and a dramatic destruction not only of the economy but in some countries of a substantial proportion of the labour force In these countries post war recovery was almost impossible *Chester William Nimitz. The Pragmatics of Sea Power* Francisco Piedade Vaz, 2025-02-14 In this book Francisco Piedade Vaz PhD an officer in the Portuguese Navy has made an independent and careful investigation into Chester Nimitz s life and career making very effective use of the very wide and deep range of archival sources oral histories and published materials available His insightful analysis grasps the basic elements of Nimitz s success as a naval commander and brings out the fundamental reasons that make him an enduring model of leadership John B Hattendorf
