Dincer, 2012-01-30 **Father-Child Relations** Barry S. Hewlett, 2017-09-04 Due to a greater involvement of American fathers in the direct care of their children in recent years interest in the impact and nature of the father s role in nurturing children has increased While studies about fathers in the industrialized literate West have proliferated little is known about the role of fathers in the preliterate non Western world This collection examines the diversity of paternal roles found in human cultures among various types of societies that are very peaceful and those that actively engage in warfare as a mode of existence Father Child Relations recognizes the importance of understanding both biological and cultural aspects of the father s role Many of the contributors utilize evolutionary or biosocial models including those of developmental psychology to examine the father s role while others rely upon the symbolic analysis of cultural and social anthropology One chapter is devoted to male infant relationships in nonhuman primates a further largely ignored comparative perspective The anthropologists who have contributed to this collection are field workers who have lived intimately over significant periods of time with the people about whom they are writing These research reports from the field have been edited to make them wholly accessible to the non specialist The contributors of this volume recognize that biology and ideology are intertwined both together influence the father s behavior and the effects of his behavior **I Am My Father'S Child** Thandi Njuti, 2016-03-31 The story is about a young girl by the name of Nobomvu and her father Mr Mxgekwa Mr and Mrs Mgxekwa were an elderly Xhosa couple late fifties that often worked out of town as farmers but resided in the rural village called Cofimvaba at the Eastern Cape in South Africa They worked as farmers for a long time and they both had no educational background but they were well mannered and lived in harmony with other community members In that old age Mrs Mxgekwa bore a baby girl which was a surprise to many as no one including her husband was aware that she was pregnant The child was genetically different from her family hence she

was named Nobomvu meaning the red one She was literally a white child in the black family The non resemblance of Nobomvu and her genetic indifference brought about a lot of unanswerable questions that resulted to confusion and tension with relatives and within the community The story of Nobomvu Mxgekwa is Christian fiction that is inspired by true life stories The contents of the story consist of parables that portray the application of the word of God The parable is known as an earthly story with the heavenly meaning

I Am My Father's Child Kenneth Samples,2020-03-23 Growing up can be an exciting time and troublesome I once read that children get their identity from their parents If that is the case there are many households where one may be missing which leaves the parent raising the child a little time between their job and other requirements to provide for the household Some children are getting identity from the wrong source There is a possibility of dark influences that all children might face these days through peers whose families are not walking with the Lord I Am My Father s Child is just a reminder to those of all ages that none of us are fatherless We only have to seek him and read his words and we will have the right identity

Recent Researches in Education Emin Atasoy,Recep Efe,Irina Koleva,2018-07-27 The book brings together 49 chapters related to the field of education The main topics explored here include teacher student interactions pre service teachers children and play early childhood education elements of education children s rights digital education attitudes of students towards the environment art education and problem solving skills among many others It will attract the attention of researchers but will also be of great interest to academics teachers students and staff in social sciences departments and related researchers
