Scruggs, Margo A. Mastropieri, 2009-03-11 In the study of learning and behavioral disabilities effective practice and public policy enacted to implement this practice are closely intertwined This book contains topics that include educational equity imputations of malice in social policy and analytical discussions of Response to Intervention and No Child Left Behind legislation *Fcat Asmnt Gr3 Sci 07 HSP*, 2004-09 *Florida Administrative Register* , 2008-12 International Guide to Student Achievement John Hattie, Eric M. Anderman, 2013-01-17 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs Education Reform in the American States Jerry McBeath, Maria Elena Reyes, Mary Ehrlander, 2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education culminating in the No Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates

related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public

Structuring Learning Environments in Teacher Education to Elicit Dispositions as Habits of Mind

Erskine S. Dottin, Lynne D. Miller, George E. O'Brien, 2013-02-14 This book focuses on faculty members in a learning community in the College of Education at Florida International University It discusses their pedagogical efforts to structure learning environments consistent with the philosophical orientation in the college's conceptual framework to call forth dispositions or key habits of mind that are consistent with reflective intelligence

Assessing English Language Learners in the Content Areas Florin Mihai, 2010-06-11 Assessing English Language Learners in the Content Areas A Research into Practice Guide for Educators seeks to provide guidance to classroom teachers staff developers and test item designers who want to improve ELL assessment outcomes particularly in the areas of math science and social studies The first two chapters of the book establish the background for the discussion of content area assessment for ELLs examining several important characteristics of this rapidly growing student population as well as critical legislation affecting ELLs and providing a description of various forms of assessment including how ELL assessment is different from the assessment of English proficient students Important assessment principles that educators should use in their evaluation of tests or other forms of measurement are provided Other chapters review ELL test accommodations nationwide because surprisingly most teachers do not know what they can and cannot allow and the research on the effectiveness of these types of accommodations The book analyzes the characteristics of alternative assessment it discusses three popular alternative assessment instruments performance assessment curriculum based measurement and portfolios and makes recommendations as to how to increase the validity reliability and practicality of alternative assessments The book proposes fundamental assessment practices to help content area teachers in their evaluation of their ELL progress

The Oppositional Culture Theory Paul C. Mocombe, Carol Tomlin, 2010-10-11 Mocombe and Tomlin explore the black white achievement gap in America and Great Britain gaining understanding through black bourgeois living and the labeled pathologies of the black underclass Within the class dualism of capitalist social relations blacks throughout the Diaspora attempt to exist in the world Furthermore blacks must construct their identities and be in the world by choosing between the discursive practices of the Protestant and capitalist ideology of the black Protestant bourgeoisie or the beliefs of the black

underclass which appear to dismiss these practices as acting white John Ogbu's term Presently the practical consciousness constituted as hip hop culture of the black underclass supported by finance capital have dominated the American and global social structure and one of its dys functions is the black white achievement gap which is a global phenomenon emanating from black America and affecting blacks around the globe Although the histories of blacks in America and in Great Britain are fundamentally different Mocombe and Tomlin argue in this work that during the age of globalization the social functions of the dominating black consciousness hip hop culture coming out of America are the locus of causality for the black white achievement gap in America and Great Britain Tomlin highlights this problematic by analyzing effective strategies employed by high achieving blacks in Great Britain and Mocombe does the same through an analysis of an effective reading curriculum in an American inner city after school program
