February March Geography Paper 2014:

A Glass Half Full? Michael E. O'Hanlon, James Steinberg, 2017-05-30 How to stabilize the security relationship between Washington and Beijing The U S China relationship has not always been smooth but since Richard Nixon's opening in the early 1970s the two countries have evolved a relationship that has been generally beneficial to both parties Economic engagement and a diplomatic partnership together with robust trade and investment relations among other activities have meant a peaceful context for reform and China's rise helping to lift millions of Chinese out of poverty and giving the PRC incentive to work within the U S led global order The logic of the relationship however is now open to serious debate on both sides of the Pacific After a period of American preoccupation with the Middle East President Obama attempted a rebalancing of U S interests toward the Asia Pacific region With the Trump administration in office the U S China relationship appears to be at a crossroads does it continue to focus on constructive engagement and managing differences or prepare for a new era of rivalry and conflict Here following up on their 2014 book *Strategic Reassurance and Resolve* the authors provide a more balanced assessment of the current state of relations and suggest measures that could help stabilize the security relationship without minimizing the very real problems that both Beijing and Washington must address The authors are hopeful but are also under no illusions about the significance of the challenges now posed to the bilateral relationship as well as regional order by the rise of China and the responses of America together with its allies *Geofinance between Political and Financial Geographies* Silvia Grandi, Christian Sellar, Juvavia Jafri, 2019-12-27 This edited collection explores the boundaries between political and financial geographies focusing on the linkages between the changing strategies policies and institutions of the state It also investigates banks and other financial institutions affected by both state policies and a globalizing financial system and the financial resources available to firms as well as households In so doing the book highlights how an empirical focus on the semi periphery of the financial system may generate new perspectives on the entanglement between geo politics and finance *Handbook of Research methods and Applications in Environmental Studies* Matthias Ruth, 2015-08-28 This Handbook presents methods to advance the understanding of interdependencies between the well being of human societies and the performance of their biophysical environment It showcases applications to material and energy use urbanization and tech ***Handbook on Geographies of Technology*** Barney Warf, 2017-02-24 This Handbook offers an insightful and comprehensive overview from a geographic perspective of the numerous and varied technologies that are shaping the contemporary world It shows how geography and technology are intimately linked by examining the origins growth and impacts of 27 different technologies and highlighting how they influence the structure and spatiality of society ***Atlas of Knowledge*** Katy Borner, 2015-03-20 The power of mapping principles for visualizing knowledge illustrated by many stunning large scale full color maps Maps of physical spaces locate us in the world and help us navigate unfamiliar routes Maps of topical spaces help us visualize the extent and structure of our collective knowledge

they reveal bursts of activity pathways of ideas and borders that beg to be crossed This book from the author of Atlas of Science describes the power of topical maps providing readers with principles for visualizing knowledge and offering as examples forty large scale and more than 100 small scale full color maps Today data literacy is becoming as important as language literacy Well designed visualizations can rescue us from a sea of data helping us to make sense of information connect ideas and make better decisions in real time In Atlas of Knowledge leading visualization expert Katy Brner makes the case for a systems science approach to science and technology studies and explains different types and levels of analysis Drawing on fifteen years of teaching and tool development she introduces a theoretical framework meant to guide readers through user and task analysis data preparation analysis and visualization visualization deployment and the interpretation of science maps To exemplify the framework the Atlas features striking and enlightening new maps from the popular Places Spaces Mapping Science exhibit that range from Key Events in the Development of the Video Tape Recorder to Mobile Landscapes Location Data from Cell Phones for Urban Analysis to Literary Empires Mapping Temporal and Spatial Settings of Victorian Poetry to Seeing Standards A Visualization of the Metadata Universe She also discusses the possible effect of science maps on the practice of science

Order and Conflict in Public Space Mattias De Backer, Lucas

Melgaço, Georgiana Varna, Francesca Menichelli, 2016-05-20 Which public and whose space The understanding of public space as an arena where individuals can claim full use and access hides a reality of constant negotiation conflict and surveillance This collection uses case studies concerning the management use and transgression of public space to invite reflection on the way in which everyday social interaction is framed and shaped by the physical environment and vice versa International experts from fields including geography criminology sociology and urban studies come together to debate the concepts of order and conflict in public space This book is divided into two parts spaces of control and spaces of transgression Section I focuses on formal and informal surveillance and the politics of control using case studies to compare strategies in spaces including Olympic cities luxury skyscrapers residential neighbourhoods and shopping malls Section II focuses on transgressive or deviant behaviour in public spaces with case studies examining behaviour in nightlife districts governance of homelessness boy racer culture and abortion protests The epilogue concludes the book with an exploration of possible future avenues for research on public space and a critical appraisal of the concept of public space itself This interdisciplinary collection will be of interest to students researchers and professionals in the areas of criminology sociology surveillance studies human and social geography and urban studies and planning

The Ukrainian Crisis Tracey

German, Emmanuel Karagiannis, 2018-12-07 The conflict in eastern Ukraine continues with little sign of a negotiated resolution Crimea has been absorbed into the Russian Federation and celebrates the third anniversary of its integration in March 2017 The ongoing nature of the conflict contrasts with a lack of academic exploration of the issues surrounding it To date most analyses have focused on the geopolitical implications of the Ukrainian crisis such as the impact on NATO Russia

relations and foreign policy responses to the crisis from a variety of state and supranational actors including the EU and Russia The role of sub state and non state actors and implications for them has been largely overlooked This volume seeks to rectify this by examining a wide array of non state and sub state actors that have both played a role in the conflict in Ukraine and been indirectly impacted by it Introduction to Regional Economic Development Mustafa Dinc,2015-12-18 This is a relatively simple and easy to read introduction of major regional and local economic development theories their theoretical evolution and other relevant topics such as governance institutions and local leadership within the globalization context It also discusses some basic analytical tools and provides a template for them in an easy to use MS Excel spreadsheet application It introduces conflict management procedures into regional development process and provides a regional decision support framework *Applied Data Analysis for Urban Planning and Management* Alasdair Rae,Cecilia Wong,2021-09-08 This book showcases the different ways in which contemporary forms of data analysis are being used in urban planning and management It highlights the emerging possibilities that city regional governance technology and data have for better planning and urban management and discusses how you can apply them to your research Including perspectives from across the globe it s packed with examples of good practice and helps to demystify the process of using big and open data Learn about different kinds of emergent data sources and how they are processed visualised and presented Understand how spatial analysis and GIS are used in city planning See examples of how contemporary data analytics methods are being applied in a variety of contexts such as smart city management and megacities Aimed at upper undergraduate and postgraduate students studying spatial analysis and planning this timely text is the perfect companion to enable you to apply data analytics approaches in your research Higher Education in Austerity Europe Jon Nixon,2017-09-21 The financial crisis of 2007 2008 prompted governments across Europe to adopt austerity measures aimed at the reduction of their escalating budget deficits Higher Education in Austerity Europe explores how the resulting cuts in public expenditure together with the increasing reliance on the privatisation of services have impacted on higher education directly through the reduction of public sector provision and indirectly as a result of the social and political consequences of that reduction Moreover it explores how the effects of these economic policies have differed markedly across the national regions of Europe with the result that inequality has increased significantly both within and between national regions and this in turn has led to social and political dislocation within and across communities It is only by viewing higher education within this broader context that we can begin to understand the full implications of the austerity measures introduced over the last ten years Jon Nixon draws together leading scholars to delve into the complexity of impact and response generated by these measures Part 1 focuses on cross European perspectives Part 2 on the impact of austerity measures within national systems and Part 3 on new perspectives and possibilities The volume also includes considered responses from outsiders by academics located in Asia Australia and the USA providing an additional dimension to the analysis As well as analysing the

full impact of austerity measures across some of the worst hit national regions of Europe the contributors also identifying openings and possibilities for renewal
