

The Federalist No. 1

Introduction

Independent Journal
Saturday, October 27, 1787
[Alexander Hamilton]

To the People of the State of New York:

AMONG an unequivocal experience of the inefficacy of the subsisting federal government, you are called upon to deliberate on a new Constitution for the United States of America. The subject speaks its own importance; comprehending in its consequences nothing less than the existence of the Union, the safety and welfare of the parts of which it is composed, the fate of an empire in many respects the most interesting in the world. It has been frequently remarked that it seems to have been reserved to the people of this country, by their conduct and example, to decide the important question, whether societies of men are really capable or not of establishing good government from reflection and choice, or whether they are forever destined to depend for their political constitutions on accident and force. If there be any truth in the remark, the crisis at which we are arrived may with propriety be regarded as the era in which that decision is to be made; and a wrong election of the part we shall act may, in this view, deserve to be considered as the general misfortune of mankind.

This idea will add the inducements of philanthropy to those of patriotism, to heighten the solicitude which all considerate and good men must feel for the event. Happy will it be if our choice should be directed by a judicious estimate of our true interests, unperplexed and unbiased by considerations not connected with the public good. But this is a thing more ardently to be wished than seriously to be expected. The plan offered to our deliberations affects too many particular interests, innovates upon too many local institutions, not to involve in its discussion a variety of objects foreign to its merits, and of views, passions and prejudices little favorable to the discovery of truth.

Among the most formidable of the obstacles which the new Constitution will have to encounter may readily be distinguished the obvious interest of a certain class of men in every State to resist all changes which may hazard a diminution of the power, emolument, and consequence of the offices they hold under the State establishments; and the perverted ambition of another class of men, who will either hope to aggrandize themselves by the confusions of their country, or will flatter themselves with fairer prospects of elevation from the subdivision of the empire into several partial confederacies than from its union under one government.

It is not, however, my design to dwell upon observations of this nature. I am well aware that it would be disingenuous to resolve indiscriminately the opposition of any set of men (merely because their situations might subject them to suspicion) into interested or ambitious views. Candor will oblige us to admit that even such men may be actuated by upright intentions, and it cannot be doubted that much of the opposition which has made its appearance, or may hereafter make its appearance, will spring from sources, blameless at least, if not respectable--the honest errors of minds led astray by preconceived jealousies and fears. So numerous indeed and so powerful are the causes which serve to give a false bias to the judgment, that we, upon many occasions, see wise and good men on the wrong as well as on the right side of questions of the first magnitude to society. This circumstance, if duly attended to,

Television Technology **The U.S. Supreme Court and New Federalism** Christopher P. Banks, John C. Blakeman, 2012-07-13 Constitutional scholars Christopher P. Banks and John C. Blakeman offer the most current and the first book length study of the U S Supreme Court's new federalism begun by the Rehnquist Court and now flourishing under Chief Justice John Roberts. Using descriptive and empirical methods in political science and legal scholarship and informed by diverse approaches to judicial ideology from historical to new institutionalist they investigate how the U S Supreme Court rulings have shaped the political principle of federalism. While the Rehnquist Court reinvigorated new federalism by protecting state sovereignty and set new constitutional limits on federal power Banks and Blakeman show that in the Roberts Court new federalism continues to evolve in a docket increasingly attentive to statutory construction preemption and business litigation. In addition they analyze areas of federalism not normally studied by scholars such as religious liberty and foreign affairs.

, *Death by a Thousand Cuts* Matt Qvortrup, 2021-06-21 Putting the current crisis of democracy into historical perspective *Death by a Thousand Cuts* chronicles how would be despots dictators and outright tyrants have finessed the techniques of killing democracies earlier in history in the 20th Century and how today's autocrats increasingly continue to do so in the 21st. It shows how autocratic government becomes a kleptocracy sustained only to enrich the ruler and his immediate family. But the book also addresses the problems of being a dictator and considers if dictatorships are successful in delivering public policies and finally how autocracies break down. We tend to think of democratic breakdowns as dramatic events such as General Pinochet's violent coup in Chile or Generalissimo Franco's overthrow of the Spanish Republic. But this is not how democracies tend to die: only five percent of democracies end like this. Most often popular government is brought down gradually almost imperceptibly. Based in part on Professor Qvortrup's BBC Programme *Death by a Thousand Cuts* Radio 4 2019 the book shows how complacency is the greatest danger for the survival of government by the people. Recently democratically elected politicians have used crises as a pretext for dismantling democracy. They follow a pattern we have seen in all democracies since the dawn of civilisation. The methods used by Octavian in the dying days of the Roman Republic were almost identical to those used by Hungarian strongman Viktor Orbán in 2020. And sadly there are no signs that the current malaise will go away. *Death by a Thousand Cuts* adds substance to a much discussed topic: the threat to democracy. It provides evidence and historical context like no other book on the market. Written in an accessible style with vignettes as well as new empirical data the book promises to be the defining book on the topic. This book will help readers who are concerned about the longevity of democracy understand when and why democracy is in danger of collapsing and alert them to the warning signs of its demise.

The History Essays Joseph Cook, 2014-03-27 A collection of history research papers written by the author during his graduate coursework. Most of the articles relate to the American Civil War. The final paper included was honored by an academic conference as the top paper presented; it deals with the death of U S Army General Edward R. S. Canby.
