Military Review ,2019 **The Army Lawyer** ,2003 **Det. 25** Michael L. Haley MSG (Ret.) USAR,2023-01-18 When Sergeant First Class Haley and 35 other Soldiers in Detachment 25 deployed to Afghanistan on a mission to mentor the training and development of the Afghanistan National Army they did not know how chewed up the situation was Selected from volunteers within the Ninety Fifth Division the Army Reserve Drill Sergeants of Det 25 discovered that training the ANA was a joke Afghanistan was a toilet that needed to be flushed of its Taliban turds but that was never going to happen What did happen was that the entire world took a crap all over that country and left it more of a mess than it was before Operation Enduring Freedom began Nation building is a failure and the United States must never again attempt it anywhere else in the world Whenever someone tells the truth about military or political incompetence in the United States the government feigns plausible deniability or tries to suppress the truth This story tells the truth about a group of American heroes and legends who did not deserve a loss for their sacrifices Thanks to the worst president in American history the loss of American lives has become a joke Americans can only laugh about OEF because there is nothing else anyone can do now except to have faith hope and love **Military Advising and Assistance** Donald Stoker,2007-12-21 This edited volume presents a number of historical case studies of military advisors and or their missions in order to provide clear examples of the functioning motives and evolution of foreign military and naval advising in the modern era **Accountability in Missions** Jonathan J. Bonk,2011-10-21 The Korean missions movement is perhaps the most significant story of the Church in the world over the past one hundred years Today Korea can boast of being the leading sender of missionaries per head of population Yet this movement has not been well integrated into the global mission community and also this community has at times failed to understand and learn from this tremendous work of God I am excited that God has brought together a unique body of people to wrestle with these issues This work will help bring about much needed collaboration and develop each other s strengths in an environment of mutual respect MALCOLM L MCGREGOR SIM International Director Accountability in Missions is a remarkable book exploring the full range of mission accountability issues strategic financial and relational from both Korean and North American perspectives This is global missiology made practical and accessible to all missions practitioners The many articles that penetrate the mysteries of Korean and North American interaction especially make it a must read book for all Koreans and North Americans working together STEVE STRAUSS Professor of Mission and Intercultural Studies Dallas Theological Seminary This collection of essays provides a biblical and theological basis for accountability and brings voices East and West demonstrating that accountability to God and to others is a universal principle not linked to one culture or context i e Western Further the collection is eminently practical addressing matters of governance decision making finance and personal integrity To all mission leaders I say read this book Actually read it but also find colleagues with whom to discuss and digest these principles and review our mission practices GORDON T SMITH President reSource Leadership

International Security Force Assistance in Afghanistan Terrence K. Kelly, Nora Bensahel, Olga Oliker, 2011-08-08 Security force assistance SFA is a central pillar of the counterinsurgency campaign being waged by U S and coalition forces in Afghanistan This monograph analyzes SFA efforts in Afghanistan over time documents U S and international approaches to building the Afghan force from 2001 to 2009 and provides observations and recommendations that emerged from extensive fieldwork in Afghanistan in 2009 and their implications for the U S Army Korean Science and Technology in an International Perspective Jörg Mahlich, Werner Pascha, 2012-01-05 South Korea has attained spectacular economic success in recent decades It has reached the status of a Newly Advanced Economy with challenges increasingly mirroring those faced by other advanced economies These include the necessary upgrading of the labor force the frictions of switching to a national system of innovation adapted to leadership in R D market based economic policies that reflect the government s difficulties in foreseeing future technological developments and the consequences of social change for the innovation system and policy making In the forthcoming book the parallel challenges for innovation and technology for the Republic of Korea and other advanced economies will be analyzed more thoroughly with an international perspective in mind This comparison and international benchmarking will allow policy makers and scholars to better appreciate how much the country has already moved into the circle of globally leading economies and what can be done to consolidate and strengthen its position

Afghan National Army Vince Bywaters, The origins of the Afghan National Army ANA are deeply rooted in Afghanistan s long and complex history of warfare tribal loyalties and external interventions While the modern ANA officially emerged in the early 2000s its conceptual and cultural roots stretch back through centuries of conflict and evolving governance structures in the region Historically Afghanistan s military forces were shaped by local warlords and tribal leaders who provided security and fought in various internal and external conflicts The concept of a centralized national army gained traction during the reign of King Amanullah Khan in the early 20th century when efforts were made to modernize and professionalize Afghanistan s armed forces However these early attempts were limited in scope and largely symbolic as loyalty to tribe ethnicity and local power brokers often took precedence over national allegiance The collapse of the Soviet backed Afghan army following the withdrawal of Soviet troops in 1989 and the subsequent civil war left the country without a functioning central military During the 1990s various militia groups and warlord factions operated with near complete autonomy eroding the notion of a unified national army When the Taliban emerged in 1996 they created their own military forces but these were more ideological and less structured as a national institution **U.S. Terminal Procedures**
