The Oxford Handbook of Local Competitiveness David B. Audretsch, Albert N. Link, Mary Lindenstein Walshok, 2015-08-03 The local levels of economies have felt the impact of technological change and globalization These forces have triggered the need to understand the dynamic mechanisms that enable locales to respond to such changes For example the downsizing of traditional employers because of a major loss in market share due to new competitors acquisition by global firms or off shoring of production or services was traditionally thought to be beyond the scope of powers of local policy makers thinkers and business leaders In the world of practice those concerned about the economic performance of place city region or state are increasingly focused on how to adapt to these trends and leverage their existing resources to respond to these global challenges as a positive opportunity The Oxford Handbook of Local Competitiveness brings together some of the leading minds in the fields of business economics and the social sciences to identify articulate

and analyze what influences and shapes local competitiveness and what places can do to enhance their economic performance The contributors to the Handbook provide a body of systematic analyses suggesting that the local context is a critical element of the forces that shape competitiveness The challenges to generate and sustain economic performance vary across places and the factors and conditions that either enhance or impede competitiveness also are place specific Finally the characteristics and nature of what constitutes success also vary across places This Handbook is essential reading material for academics in the fields of economics and public policy as well as business leaders who hope to gain a more in depth understanding of their field Informative and intellectually rigorous The Oxford Handbook of Local Competitiveness is the definitive volume of scholarly analysis regarding the relationship between place and economic competition

Audretsch, 2015-03-02 Every city region and state wants to improve However while the field of strategic management exists in business schools to guide firms and organizations no such analogous field exists for places Everything in Its Place weaves together theories empirical evidence and case studies from a broad spectrum of scholarly disciplines and combines them with insights and experiences garnered from practitioners and policy makers to provide a systematic framework for guiding and informing the strategic management of places

The Innovation Complex Sharon Zukin, 2020 New York is rapidly changing in response to a new economy but startups tech workers and venture capital are not visible unless you know where to look for them in old industrial neighborhoods on the waterfront and at events like hackathons and meetups In The Innovation Complex Sharon Zukin shows the people and places that shape the urban tech economy making cities more successful for businesses yet in some ways less livable

Politics and the Urban Frontier Tom Goodfellow, 2022-09-26 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Despite the rise of global technocratic ideals of city making cities around the world are not merging into indistinguishable duplicates of one another In fact as the world urbanizes urban formations remain diverse in their socioeconomic and spatial characteristics with varying potential to foster economic development and social justice In this book Tom Goodfellow argues that these differences are primarily rooted in politics and if we continue to view cities as economic and technological projects to be managed rather than terrains of political bargaining and contestation the quest for better urban futures is doomed to fail Dominant critical approaches to urban development tend to explain difference with reference to the variegated impacts of neoliberal regulatory institutions This however neglects the multiple ways in which the wider politics of capital accumulation and distribution drive divergent forms of transformation in different urban places In order to unpack the politics that shapes differential urban development this book focuses on East Africa as the global urban frontier the least urbanized but fastest urbanizing region in the world Drawing on a decade of research spanning three case study countries Ethiopia Rwanda and Uganda Politics and the Urban Frontier provides the first sustained book length

comparative analysis of urban development trajectories in Eastern Africa and the political dynamics that underpin them Through a focus on infrastructure investment urban propertyscapes street level trading economies and urban political protest it offers a multi scalar historically grounded and interdisciplinary analysis of the urban transformations unfolding in the world s most dynamic crucible of urban change

The Power of New Urban Tourism Claudia Ba, Sybille Frank, Claus Müller, Anna Laura Raschke, Kristin Wellner, Annika Zecher, 2021-07-21 The Power of New Urban Tourism explores new forms of tourism in urban areas with their social political cultural architectural and economic implications By investigating various showcases of New Urban Tourism within its social and spatial frames the book offers insights into power relations and connections between tourism and cityscapes in various socio spatial settings around the world Contributors to the volume show how urban space has become a battleground between local residents and visitors with changing perceptions of tourists as co users of public and private urban spaces and as influencers of the local economies This includes different roles of digital platforms as resources for access to the city and touristic opportunities as well as ways to organise and express protest or shifting representations of urban space With contemporary cases from a wide disciplinary spectrum the contributors investigate the power of New Urban Tourism in Africa Asia the Americas Europe and Oceania This focus allows a cross cultural evaluation of New Urban Tourism and its dynamic and changing conception transforming and subverting cities and tourism alike The Power of New Urban Tourism will be of great interest to academics researchers and students in the fields of cultural studies sociology the political sciences economics history human geography urban design and planning architecture ethnology and anthropology

Poverty and Austerity amid Prosperity Gregg M. Olsen, 2021-09-15 Poverty and Austerity amid Prosperity puts a sharp focus on rising levels of poverty and homelessness in Canada the United Kingdom and the United States Highlighting the important differences between these countries Gregg M Olsen examines how poverty and homelessness have been conceptualized defined measured and addressed in each country Olsen critically contrasts the two main theoretical traditions individual and societal that have emerged to explain poverty and homelessness Ultimately he argues that societal approaches to the study of poverty are better equipped to explain the developments unfolding across these nations and that the eradication of poverty will only happen when the socioeconomic system has been seriously overhauled and founded upon economic democracy

Global Developments in Public Infrastructure Procurement Darrin Grimsey, Mervyn K. Lewis, 2017-11-24 There is widespread acceptance of the importance of infrastructure but less agreement about how it should be funded and procured While most public infrastructure is still provided in house or by traditional procurement methods with well researched strengths and weaknesses the development of service concession arrangements has seen a greater emphasis on lifecycle costing risk assessment and asset design as featured in a variety of public private partnership PPP delivery models This book examines the various procurement approaches and provides a framework for comparing their advantages and disadvantages Drawing on international experience it considers some of the

best and worst examples of PPPs and infrastructure projects generally along with the lessons for improving infrastructure procurement processes
