

HAMER OWNER'S MANUAL / WARRANTY

Congratulations, and welcome to the world of Hamer! Your new Hamer USA guitar represents the pinnacle of guitar-making artistry, and is your membership card to an exclusive club that includes many of the world's most innovative and influential players.

Please take a few moments to review this manual to familiarize yourself with your Hamer's controls, operation and maintenance in order to take full advantage of the guitar's potential. Many of the suggestions in this manual can be adjusted immediately and will greatly enhance your performance capabilities; however, we find that our customers are the best at pushing the boundaries of what can be done with Hamer guitars, so we welcome your input on this state-of-the-art instrument.

SETUP:

Your Hamer USA guitar comes professionally set-up, intonated and ready to play with a 100% 100% nickel-steel string set. Instruments leave Hamer with an action that is low by some standards, but we feel that it is a more accurate representation of the instrument's potential, as you can always raise the action. The string height at the bridge is adjusted by turning the bridge wheels (found where) other choices to lower the action or counter-choices to raise the action.

A word of caution: most action-related problems are usually created by seasonal, or weather related neck shift, which is typical for all guitars. This kind of problem can be solved with a simple truss rod adjustment. Check to make sure that this is NOT the case before you try to fix a buzzing problem by adjusting the bridge height.

If you have any questions regarding these procedures or any other functions of your guitar, please contact:

Hamer Customer Service at
1-877-4HAMER (1-877-442-6271), in the U.S.A.

Thank you for choosing Hamer USA guitars, we hope you enjoy playing your instrument as much as we enjoyed making it.
