Writing Speed Assessment – Teacher Guidance Notes

Purpose

The assessment can be used to give an indication of a pupil's writing speed.

This assessment can be used as a baseline at the start of an intervention programme or to inform a pupil's individual targets or goals. The assessment will then be conducted at the end of the intervention, or a set period of time, to give a final assessment of the pupil's handwriting skills and speed. It can be used to demonstrate progress in a non-standardised way.

Recommendations

- Conduct the assessment at a suitable time and place where the pupil feels comfortable.
- Explain to the pupil that they will only get a short piece of writing for five minutes which can be about any topic relevant to them, for example hobbies, interests, family/friends, school life etc.
- Encourage the pupil to write as much as they can in the set time. You can also use this assessment to plan 'spice' writing steps and targets.

Measurement

Once the five minutes is complete, total the number of words written and then divide by five to give the number of words written per minute. For example:

Baseline assessment: 100 total words ÷ 5 = 20 words per minute

Final assessment: 100 total words ÷ 5 = 20 words per minute

Therefore, the improvement shown is 0 words per minute, along with increased writing speed, fluency and using correct writing.
