

INTRODUCTION

General

This workshop manual provides a detailed description of procedures for trouble shooting, repair and testing of the chain saws. Safety precautions that should be taken during repair are also described.

This workshop manual applies to the engine assembly in the following chain saws:

36	257
40	262XP
	268
41	
42	272XP
	268K
45	272K
51	272S
55	
61	281XP
	288XP
242XP	
246	394XP
254XP	3120XP

Safety

Note!

The section dealing with safety should be read and understood by all who carry out repair or service work on the chain saw.

There are warning symbols on the chain saw. If a warning symbol has been damaged or is missing, it must be replaced immediately in order to maximise safety when the saw is in use.

Target group

This workshop manual is written for personnel that are assumed to have general knowledge of service and repair of small engines.

The workshop manual should be read and understood by all personnel carrying out service and repair work on the chain saw. The manual is also suitable for use in the training of new employees.

Updates

As production continues, changes will be introduced successively to the chain saw. If at any time these changes influence service and/or spares, special service announcements will be sent out, which means that this manual will cease to be current with time. In order to avoid problems, the manual should always be read together with all service announcements that apply to the specific model of chain saw.

Tools

For specific procedures special tools are required. In this workshop manual, all the service tools required are listed. Use of the tools is described in appropriate sections.

Always use Husqvarna original:

- Spare parts
- Service tools
- Accessories

Layout

The descriptive sections in this workshop manual are set out in a number of flow diagrams. When carrying out repairs on a specific chain saw, follow the signs that apply to the saw in question.

Diagrams are not numbered as they are linked to the actual text, either by lines or by being in the same box.

Positional directives to components inside the diagrams are designated with A, B, etc. and start from A again in each new section.
