 mechanism for conflict resolution In this study economists lawyers and sociologists evaluate an institutional form that is new  
 to American society and indeed to the world the public interest law PIL organization The book introduces the reader to the  
 structure resources and activities of this nonprofit industry and also to the factors that affect PIL firms in their choices of  
 cases and methods of handling them The authors examine PIL s vast range of contemporary public policy concerns These  
 include such general topics as the environment consumerism housing employment discrimination medical care occupational  
 health and safety education finance and taxation A number of base studies are presented and a method for economic analysis  
 and evaluation is introduced and applied The study points to PIL s success in advocating under represented interests in  
 winning courtroom decisions and in translating legal victories into reallocations of resources At the same time it notes the  
 bias of PIL towards test case litigation a propensity to focus on judicial victories rather than on real social change and a  
 tendency to use lawyers even when other types of professionals might be more effective Many of these problems stem from  
 uncertainty of funding and legal restrictions on nonprofit organizations The result is a set of hurdles that distracts PIL firms  
 from their principal goals The authors do not limit themselves to PIL but comment on the effectiveness of legal instruments  
 as devices for social change and on the behavior of the voluntary nonprofit sector a little studied portion of the economy The  
 book presents a fresh approach to the study of both collective type economic problems and institutional setting in which  
 public interest law works What is public interest law How effective is it What are the limits to litigation as a mechanism for
