Shariah and the Halal Industry Mohammad Hashim Kamali, 2021-07-13 The rapid expansion of the halal industry and its markets has occurred not only in the heavily Islamic regions of Southeast Asia and the Middle East but also in more unexpected countries such as Turkey Japan and South Korea plus many others around the world Yet despite both the increasing number of practicing Muslims and the demand for halal products worldwide a base of scholarship on the subject has never emerged The industry has been more market driven rather than knowledge driven As such industry operators have frequently drawn attention to the absence of such an authoritative text one that would elucidate the shariah credibly of halal as well as its market presence Mohammad Hashim Kamali s *Shariah and the Halal Industry* is designed to fill this gap The first of its kind in the English language the book is written in an accessible and reader friendly style by a world renowned authority on Islamic law and jurisprudence The book serves as a reference on the shariah foundations of halal and meets the needs not only of industry operators and decision makers but also of students scholars of Islam and the many practicing Muslims who are customers of the halal industry across the globe The book can also serve to educate the general public and non specialist readers on Islam and shariah law at large

Towards a Competitive Malaysia Mohammad Bakri Musa, 2007 Malaysia s foremost challenges are the fragmentation of its society and deterioration of its institutions Social stability is a prerequisite for economic growth and effective institutions for optimizing it The deepening polarization of Malays poses a far greater threat than the more readily recognized divisions between the races while Malaysian institutions are fast losing their integrity and effectiveness through the twin blights of corruption and incompetence The author presents the framework of his Diamond of Development through enhancing its four cardinal elements leadership people culture and geography Optimizing all four with each synergistically reinforcing the other would propel Malaysia into its next trajectory of development Malaysia has done many things right attaining independence peacefully defeating the communist insurgency and achieving economic growth with equity Those should give Malaysians confidence to tackle the current challenges Regionally Malaysia should integrate its economy with Brunei and Indonesia IMB instead of the ambitious and unattainable ASEAN common market Malaysia could potentially lead the greater Malay world through IMB and then be a model for the Muslim world in demonstrating the compatibility of Islam with modernity Malaysia is also ideally positioned to bridge East and West as well as the West and the Islamic world
