Dr. Enoch Antwi, 2017-04-19 This book identifies philosophical and definitional gaps in evolutionary natural science and modern leadership studies It strongly argues that if we continue to use current fragmented leadership models and theories we are not likely to solve the challenge of leadership soon Other topics include Small and Big Issues Contact Yourself Be the Best in Two Everybody Knows a Good Leader the Bouazizi Factor Synchronicity Be the Judge and the Legal Sin **A Noble Calling** David W. Whitlock, Gordon Dutilleul, 2008-01-01 Too often individuals who have been called to practice their gifts and talents in the field of business and professional life sense that to serve God they ought to be doing something more directly involved with the church Many successful business leaders upon coming to faith in Christ or upon renewing their interest in God's Word struggle with whether or not they should enter vocational ministry Certainly God calls some from among the

professions into such vocations but many simply haven't realized the full potential of where God has placed them. God's people who are assigned to duties in corporate boardrooms or offices, on sales forces in entrepreneurial ventures and as members of research and development teams are among his most effective servants. Believers who are active in the marketplace are surely among God's most treasured ministers and have the potential to have a wider impact and larger influence than most who serve in full-time vocational ministries. Likewise, these professionals have a capacity for great harm to the church and the cause of Christ if while they make claims of Christian belief, their actions prove inconsistent with what God's Word teaches if their walk doesn't match their talk. Be encouraged, God wants to use you where you are. He wants to sanctify all of what you have learned and experienced. You have great potential in the kingdom.
