Salvatore Babones, 2017-07-19 After a meteoric rise China's growth has come to a screeching halt Salvatore Babones provides an up to date assessment of how China's economic problems are undermining its challenge to the Western dominated world order He tells how liberal individualism has become the leitmotif of American Tianxia *The Primary Way* Chung-ying Cheng, 2020-09-01 In *The Primary Way* the distinguished scholar of Chinese philosophy Chung ying Cheng synthesizes his lifetime of work on the Yijing also known as the I Ching or Book of Changes Cheng offers a systematic engagement with the classic Chinese text as a philosophy that is still valuable and relevant today In contemporary philosophical terms Cheng has developed the ontological hermeneutics of the Yijing as well as its philosophical methodology of symbolic reference in a holistic and onto generative system of trigrams and hexagrams The book is organized around eight themes that illuminate Cheng's interpretation of the Yijing as a philosophy for creative human action and transformation He demonstrates how the philosophy of change in the Yijing embodies early Chinese ontology cosmology epistemology and virtue ethics in the interpretation of divinatory judgments Cheng's work shows how the philosophy of change contains a vision of humanity as creatively related to heaven and earth and how it gives positive meaning to any change as part of a ceaseless creativity With this understanding it enables humanity to develop its potential as a partner of heaven and earth

History of Literature in the Ming Dynasty Li Shi, The book is the volume of History of Literature in the Ming Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various

warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty (206 BC–220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644–1912), which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War (1927–1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion, and foreign contact, form the basis of the modern culture of China.

Reverie and Reality Yanning Wang, 2013-12-18. This is a study of Chinese gentry women's poems on the theme of travel, written during the late imperial period (ca. 1600–1911), when Chinese women's literature and culture flourished as never before. It challenges the clichéd image of completely secluded and immobile women anxiously waiting inside their prescribed feminine space, the so-called inner quarters, for the return of traveling husbands or other male kin. The travel poems discussed in this book, while not necessarily representative of all of the women writers of this period, point to the fact that many of them longed to explore the world through travel, as did so many of their male counterparts. Sometimes they were able to actualize this desire for travel, and sometimes they were forced to resort to imaginary armchair travel. In either case, women writers often used poetry as a means of recording their experiences or delineating their dreams of traveling outside the inner quarters and indeed sometimes far away from the inner quarters. With its promise of adventure and fulfillment, and above all, a broadening of one's intellectual and emotional horizons, travel was an important and until now understudied theme of late imperial women's poetry.
