The Vocation of Writing Marc Crépon, 2018-04-01 Explores how violence structures language and the writing of literature and philosophy Within the violence our societies must confront today exists a dimension proper to language Anyone who has been through the educational system for example recognizes how language not only shapes and models us but also imposes itself upon us During the twentieth century this system revealed how language can condemn one to a certain death In *The Vocation of Writing* philosopher Marc Crépon explores this dimension of language convinced that the node of all violence pertains first to language and how we make use of it Crépon focuses on Kafka Levinas Singer and Derrida not only because each rose against commandeering language in order to warn

against the next massacres but also because their work affirms the vocation of writing that which makes literature and philosophy the final weapon for unmasking the violence and hatred that language bears at its heart To affirm the vocation of writing is to turn language against itself to defuse its murderous potentialities by opening it toward exchange responsibility and humanity when the latter fixes the other and the world as its goals ... New York Nouveau Sara Kippur,2025-08-12 Postwar French writers were at the vanguard of global literary innovation from the experimental minimalism of the Nouveau Roman to the literary games of the OuLiPo but less often appreciated is the extent to which they worked closely with US editors and translators published actively with American presses and often theorized transatlantic connections within their work In this exciting new work Sara Kippur proposes a new French literary history that traces the deep connections between postwar literary experimentalism and the New York publishing industry compellingly arguing that US based editors publishers producers professors and translators crucially intervened to shape French literature While Kippur attends closely to well known writers such as Marguerite Duras Samuel Beckett Eug ne Ionesco Georges Perec and Alain Robbe Grillet she also amplifies the

voices of those who have been less visible though no less relevant including women whose contributions have not received proper credit but who helped to foster a sense of new possibilities for twentieth century French writing With these untold histories stitched together in this book through new archival discoveries from special collections and personal archives on both sides of the Atlantic Kippur begins to dismantle rigid notions of canonicity authorship and national literature *I & N Reporter* ,1986 *World of Our Fathers* Irving Howe,2017-10-31 The National Book Award winning New York Times bestselling history of Yiddish speaking immigrants on the Lower East Side and beyond In the late nineteenth and early twentieth centuries two million Jewish immigrants poured into America leaving places like Warsaw or the Russian shtetls to pass through Ellis Island and start over in the New World This is a brilliant account of their stories The New York Times Though some moved on to Philadelphia Chicago and other points west many of these new citizens settled in New York City especially in Manhattan s teeming tenements Like others before and after they struggled to hold on to the culture and community they brought from their homelands all the while striving to escape oppression and find opportunity They faced poverty and crime but also experienced the excitement of freedom and previously unimaginable possibilities Over the course of decades from the 1880s to the 1920s they were assimilated into the great melting pot as the Yiddish language slowly gave way to English work was found in sweatshops children were sent to both religious and secular schools and for the lucky ones the American dream was attained if not in the first generation then by the second or third Nominated for a National Book Critics Circle Award *World of Our Fathers* explores the many aspects of this time and place in history from the political to the cultural In this compelling American story Irving Howe addresses everything from the story of socialism the hardships of the ghetto and the tragic Triangle Shirtwaist Factory fire that killed scores of garment workers to the Borscht Belt resorts of the Catskills in colorful and dramatic detail Both meticulously researched and lively it is a stirring evocation of the adventure and trauma of migration *Newsweek* *Immigrant America* Alejandro Portes,Rubén G. Brownstone,Irene M. Franck,Douglass L. Aesthetics of Island Space Johannes Riquet, 2019-12-17 Oxford Textual Perspectives is a series of informative and provocative studies focused upon literary texts conceived of in the broadest sense of that term and the technologies cultures and communities that produce inform and receive them It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies By engaging with the materiality of the literary text its production and reception history and frequently testing and exploring the boundaries of the notion of text itself the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well known works The Aesthetics of Island Space discusses islands as central figures in the modern experience of space It examines the spatial poetics of islands in literary texts from Shakespeare's *The Tempest* to Ghosh's *The Hungry Tide* in the journals of explorers and scientists such as James Cook and Charles Darwin and in Hollywood cinema It traces the ways in which literary and cinematic islands have functioned as malleable spatial figures that offer vivid perceptual experiences as well as a geopoetic oscillation between the material energies of words and images and the energies of the physical world The chapters focus on America's island gateways Roanoke and Ellis Island visions of tropical islands Tahiti and imagined South Sea islands the islands of the US Canadian border region in the Pacific Northwest and the imaginative appeal of mutable islands It argues that modern voyages of discovery posed considerable perceptual and cognitive challenges to the experience of space and that these challenges were negotiated in complex and contradictory ways via poetic engagement with islands

Discussions of island narratives in postcolonial theory have broadened understanding of how islands have been imagined as geometrical abstractions bounded spaces easily subjected to the colonial gaze There is however a second story of islands in the Western imagination which runs parallel to this colonial story In this alternative account the modern experience of islands in the age of discovery went hand in hand with a disintegration of received models of understanding global space Drawing on and rethinking post phenomenological geocritical and geopoetic theories The Aesthetics of Island Space argues that the modern experience of islands as mobile and shifting territories implied a dispersal fragmentation and diversification of spatial experience and it explores how this disruption is registered and negotiated by both non fictional and fictional responses *Orthodoxy on the Line* Aram G. Sarkisian, 2025-07-22 Working class immigration religion and labor history in the United States At the turn of the twentieth century thousands of immigrants from the borderlands of the Russian and Austro Hungarian Empires built a transnational church in North America The community that church leaders called

American Orthodox Rus was created by and for working people and transformed believers identities as Eastern European migrants as Orthodox Christians and as American workers Given how strongly the Russian Orthodox Christian community was tied to working class industrial life this book makes the case that we cannot understand the scope of working class and immigrant religion in the United States without understanding American Orthodox Rus The work Russian Orthodox immigrants did in the Progressive Era United States occurred in factories foundries and mines they lived mainly in industrial cities and mining towns and they almost immediately got caught up in the most pivotal and sometimes violent political and social crises of their times both nationally and internationally To address their needs in these contexts the Russian Orthodox Church expanded its missionary efforts in North America forming a network of social and material aid for working class believers This book traces the rapid growth of this transnational religious world then explores its unexpected collapse under the weight of the First World War a global pandemic and the transnational reach of revolutionary political change in Russia A story of challenge and resilience Orthodoxy on the Line complicates dominant paradigms in the study of labor and North American Religions

Multilingual America Werner Sollors, 1998-08 Aside from the occasional controversy over Official English campaigns language remains the blind spot in the debate over multiculturalism Considering its status as a nation of non English speaking aborigines and of immigrants with many languages America exhibits a curious tunnel vision about cultural and literary forms that are not in English How then have non English speaking Americans written about their experiences in this country And what can we learn about America immigration and ethnicity from them Arguing that multilingualism is perhaps the most important form of diversity Multilingual America calls attention to and seeks to correct the linguistic parochialism that has defined American literary study By bringing together essays on important works by among others Yiddish Chinese American German American Italian American Norwegian American and Spanish American writers Werner Sollors here presents a fuller view of multilingualism as a historical phenomenon and as an ongoing way of life At a time when we are just beginning to understand the profound effects of language acquisition on the development of the brain Multilingual America forces us to broaden what in fact constitutes American literature
