Energy And Social Policy Routledge Revivals:

Energy and Social Policy (Routledge Revivals) Jonathan Bradshaw, Toby Harris, 2014-10-14 Energy price rises have been amongst the biggest change that has taken place in our society over the last few decades Their impact particularly when this book was first published in 1983 had a growing importance in social policy practice and research and fuel was and still is a major public issue This collection of essays describes how and why domestic fuel prices have been rising faster than other prices and incomes what impacts this has on domestic budgets and the extent of fuel poverty The resulting problems of debts disconnections cold conditions and hypothermia are discussed by specialists in these fields This book is ideal for students of economics and social policy Routledge Revivals: Energy II (1977) Denton Morrison, 2018-01-12 Originally published in 1977 Energy II provides a comprehensive and updated bibliography of energy in the context of the social sciences Following on from the first bibliography published in 1975 this book offers a fully updated bibliography and argues that energy problems are best seen in the context of social phenomena such as social attitudes social behaviours social institutions and structures and populations The book provides a unique list of references that examine energy problems outside of the context of social factors Empowering Science and Mathematics for Global Competitiveness Yuli Rahmawati, Peter Charles Taylor, 2019-06-07 This conference proceedings focuses on enabling science and mathematics practitioners and citizens to respond to the pressing challenges of global competitiveness and sustainable development by transforming research and teaching of science and mathematics The proceedings consist of 82 papers presented at the Science and Mathematics International Conference SMIC 2018 organised by the Faculty of Mathematics and Natural Sciences Universitas Negeri Jakarta Indonesia The proceedings are organised in four parts Science Science Education Mathematics and Mathematics Education The papers contribute to our understanding of important contemporary issues in science especially nanotechnology materials and environmental science science education in particular environmental sustainability STEM and STEAM education 21st century skills technology education and green chemistry and mathematics and its application in statistics computer science and mathematics education **The Political Economy of South Africa's Post-apartheid Transition** Benjamin Fine, 2025-05-26 South Africa's post apartheid transition has proven disastrous It is marked by the emergence of a black elite of enriched capitalists out of the globalisation neoliberalisation and financialisation of the economy in general and of its Minerals Energy and Financial Complex in particular By contrast inequalities poverty and failing social provision have persisted Recent attention has shifted to how this disastrous trajectory was initiated some suggesting a lack of available alternative policy options at the time of transition This is shown to be false with a full range of progressive alternatives being rejected with corresponding consequences from state capture to electoral defeat **Export Pipelines from the CIS Region** Andreas Heinrich, 2014-04-01 This timely collection offers fresh perspectives to the analysis of the New Great Game the fight for access to the Caspian Sea region's energy resources To date the export of the Caspian

crude oil and natural gas has only been assessed geopolitically which oversimplifies the political dynamics of the region and neglects to acknowledge the Caspian countries as actors in their own right

Radical Records (Routledge Revivals) Bob Cant, Susan Hemmings, 2010-07-19 The period between the publication in 1957 of the liberalising Wolfenden Report and the introduction in 1987 of the homophobic Section 28 was characterised by unprecedented optimism and political activism among lesbians and gay men in Britain But the law and its shortcomings never determined their whole political and cultural agenda and *Radical Records* explores the diverse and sometimes conflicting attempts of lesbian and gay people to build a new world for themselves and those they loved The contributors recount their own personal narratives of how they struggled to re define their identities to explore non traditional expressions of intimacy to reclaim public spaces to engage with the HIV epidemic to build alliances and generally to make radical transformations of their lives The re issue of this important work first published in 1988 gives its readers an opportunity to re visit that turbulent time through the voices of its participants
