reforms and displaced other valuable ways to educate children In this nuanced and provocative book Nicholas Tampio argues that though national standards can raise the education bar for some students the democratic costs outweigh the benefits To make his case Tampio describes the history philosophy content and controversy surrounding the Common Core standards for English language arts and math He also explains and critiques the Next Generation Science Standards the Advanced Placement US History curriculum framework and the National Sexuality Education Standards Though each set of standards has admirable elements Tampio asserts that democracies should disperse education authority rather than entrust one political or pedagogical faction to decide the country's entire philosophy of education Ultimately this lively and accessible book presents a compelling case that the greater threat to democratic education comes from centralized government control rather than from local education authorities

**Authentic Voices** Patricia Ruggiano Schmidt, 2021-05-01 This book, authored by K-4 elementary educators working at a publicly funded non-profit charter school, illustrates the power of culturally responsive teaching and learning as it becomes embedded in the New York State Education Curriculum. Educators, families, and community members contributed to this unique program with the goal of enhancing learning environments by applying the languages and cultures of their students in their classrooms. Strong, carefully attentive school leadership encouraged culturally responsive teaching and learning with the belief that children in this urban, economically stressed area could demonstrate significant academic and social-emotional gains. Readers of this book will witness culturally responsive lessons, family interviews, and whole-school events that honor languages and cultures represented in the school. Sample classrooms, culturally responsive lessons tied to the curriculum, are presented. Additionally, qualitative and quantitative student academic and affective gains are analyzed. Moreover, this book clearly demonstrates the talents, vision, and compassionate care given to children and their families by exceptional educators. A CRTL Montage was created for this book. It includes classrooms, children, teachers, family, and community members. Teachers collected CRTL experiences and presented them to Producer Dean Meghan Miller and Director/Designer Dean Pamela Smith. They also received support for the montage from Instructor Allen Lauricella and Graduate Assistant Elizabeth Kenny, Syracuse University. Newhouse School.
