Towards a Hybrid, Flexible and Socially Engaged Higher Education Michael E. Auer, Uriel R. Cukierman, Eduardo Vendrell Vidal, Edmundo Tovar Caro, 2024-02-25 We are currently witnessing a significant transformation in the development of education on all levels and especially in post secondary education To face these challenges higher education must find innovative and effective ways to respond in a proper way The pandemic period left us with profound changes in the way we teach and learn including the massive use of new means of communication such as videoconferencing and other technological tools Moreover the current explosion of artificial intelligence tools mainly used by students is challenging teaching practices maintained for centuries Scientifically based statements as well as excellent best

practice examples are absolutely necessary The 26th International Conference on Interactive Collaborative Learning ICL2023 which will take place in Madrid Spain between 26th and 30th September 2023 will be the perfect place where to present and discuss current trends in Higher Education Since its beginning in 1998 this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy In this way we try to bridge the gap between pure scientific research and the everyday work of educators

Business Education and Ethics: Concepts, Methodologies, Tools, and Applications

Management Association, Information Resources,2017-07-13 In the increasingly competitive corporate sector organizational leaders must examine their current practices to ensure business success This can be accomplished by implementing effective educational initiatives and upholding proper ethical behavior Business Education and Ethics Concepts Methodologies Tools and Applications is a comprehensive source of academic knowledge that contains coverage on the latest learning and educational strategies for corporate environments as well as the role of ethics and integrity in day to day business endeavors Including a broad range of perspectives on topics such as globalization organizational justice and cyber ethics this multi volume book is ideally designed for managers practitioners students professionals and researchers actively involved in the corporate sector

Entrepreneurship Education and Training Programs around the World Alexandria Valerio,Brent Parton,Alicia Robb,2014-05-06 Entrepreneurship has attracted global interest for its potential to catalyze economic and social development Research suggesting that certain entrepreneurial mindsets and skills can be learned has given rise to the field of entrepreneurship education and training EET Despite the growth of EET global knowledge about these programs and their impact remains thin In response this study surveys the available literature and program evaluations to propose a Conceptual Framework for understanding the EET program landscape The study finds that EET today consists of a heterogeneous mix of programs that can be broken into two groups entrepreneurship education and entrepreneurship training These programs target a range of participants secondary and post secondary education students as well as potential and practicing entrepreneurs The outcomes measured by program evaluations are equally diverse but generally fall under the domains of entrepreneurial mindsets and capabilities entrepreneurial status and entrepreneurial performance The dimensions of EET programs vary according the particular target group Programs targeting secondary education students focus on the development of foundational skills linked to entrepreneurship while post secondary education programs emphasize skills related to strategic business planning Programs targeting potential entrepreneurs generally are embedded within broader support programs and tend to target vulnerable populations for whom employment alternatives may be limited While programs serving practicing entrepreneurs focus on strengthening entrepreneurs knowledge skills and business practices which while unlikely to transform an enterprise in the near term may accrue benefits to entrepreneurs

over time The study also offers implications for policy and program implementation emphasizing the importance of clarity about target groups and desired outcomes when making program choices and sound understanding of extent to which publicly supported programs offer a broader public good and compare favorably to policy alternatives for supporting the targeted individuals as well as the overall economic and social objectives Universities and Entrepreneurship Paul Jones,Nikolaos Apostolopoulos,Alexandros Kakouris,Christopher Moon,Vanessa Ratten,Andreas Walmsley,2021-02-15 The aim of this book is to discuss how universities are acting in an entrepreneurial way by responding to educational and social challenges This will help to understand fruitful new areas of teaching research service and engagement that can occur in a university setting based on entrepreneurial thinking **Handbook of Research on Ethics, Entrepreneurship, and Governance in Higher Education** Nair, Suja R.,Saiz-Álvarez, José Manuel,2018-09-14 Ethics entrepreneurship and governance are very essential and crucial for the sustainable development of institutions of higher education especially in the face of moral ambiguity or ethical lapses that could occur As such it is vital to explore how to facilitate the effective and efficient development of higher education institutions to put into practice ethical behaviors and entrepreneurial values for the progressive future of society The Handbook of Research on Ethics Entrepreneurship and Governance in Higher Education is a pivotal reference source that provides vital research on the application of ethics entrepreneurship and governance in higher education institutions Featuring coverage topics such academic misconduct ethical leadership and student values this publication is ideally designed for educational administrators professors academicians researchers and graduate level students seeking current research on the impact of globalization on the ethics and governance in higher education through various policy decisions and practices
