

# I Shall Protect the Forests

by Lenore Hetrick

Have you ever really looked at trees,  
And seen their perfect beauty?  
If you have, you know that their protection  
Is a stern and sacred duty.  
Protection of that spreading grandeur,  
Through many summers grown,  
Safeguarding of those temples green  
Where the song of bird is known.

Then remember that the forest fire  
Is an enemy to fight.  
It is a tree assassin to be  
Watched both day and night.  
A camp fire left unguarded or  
A match tossed carelessly  
May bring destruction with great loss,  
And deepest tragedy.

When next you see the wide-flung branches  
Of a graceful pine,  
Think to yourself, "A sacred service  
Is part and parcel of mine.  
I resolve to protect all trees forever,  
And guard their heaven-sent beauty,  
To save the forests of our land  
Shall ever be my duty."

*The Aesthetics of Children's Poetry* Katherine Wakely-Mulroney, Louise Joy, 2017-11-01 This collection gives sustained attention to the literary dimensions of children s poetry from the eighteenth century to the present While

reasserting the importance of well known voices such as those of Isaac Watts William Blake Lewis Carroll Christina Rossetti A A Milne and Carol Ann Duffy the contributors also reflect on the aesthetic significance of landmark works by less frequently celebrated figures such as Richard Johnson Ann and Jane Taylor Cecil Frances Alexander and Michael Rosen Scholarly treatment of children s poetry has tended to focus on its publication history rather than to explore what comprises and why we delight in its idiosyncratic pleasures And yet arguments about how and why poetic language might appeal to the child are embroiled in the history of children s poetry whether in Isaac Watts emphasising the didactic efficacy of like sounds William Blake and the Taylor sisters revelling in the beauty of semantic ambiguity or the authors of nonsense verse jettisoning sense to thrill their readers with the sheer music of poetry Alive to the ways in which recent debates both echo and repudiate those conducted in earlier periods The Aesthetics of Children s Poetry investigates the stylistic and formal means through which children s poetry in theory and in practice negotiates the complicated demands we have made of it through the ages *The Continuum Encyclopedia of Children's Literature* Bernice E. insisted that education should promote a child's attention to the moral dimensions woven into the tapestry of creation and professed that play, wonder, and a sensory relationship to diverse creatures play a pedagogical role in a child's moral formation. Greening the Children of God establishes the contemporary significance of Traherne's moral theory in conversation with child psychologists, educators, philosophers, and theologians who know that cultivating a place-based relationship to the local ecology helps children perceive creation's deep mutuality and develop a moral identity in the image of a caring Creator.
