Finally, the authors of this volume do not deny (p. 196) that Europe's initial efforts concerning women's environmental problems (Sweden, 1970s) involved all major legal systems even though women's movements were not yet strong. It is possible instead, perhaps in the 1980s, that women's movements were stronger in Sweden (L. 1974, 1976) than elsewhere. This concept of environmental protection being strong-related to Swedish environmentalists influenced the 1990s efforts. David (1997) indicates a strong early interest, high quality, involvement, and leadership among women in the Swedish environmental movement (p. 196). Indeed, Swedish environmentalists had early access to high quality knowledge and information from other environmentalists and, second, that Swedish environmentalists "often had been active in other movements before they came to environmental issues" (p. 196) and that they continued to play a role in other movements (p. 196).
