Emancipation of English Women Kathleen E. McCrone,2024-11-01 First published in 1988 This study can be situated within the history of women women s education women s rights sport leisure and recreation Its aim is not to establish or submit to review what is known or thought to be known about the Victorian world view and woman s place within it but rather to investigate reactions against this view and the emergence of a counter view through sport and exercise An attempt is made to rescue the English sportswoman from the obscuring mists of the past to discuss her as a transitional figure between opposing views of womanhood and to place her within the context of the general movement for the emancipation of women as an important effect and cause without necessarily assuming what women s status in sport and in society should have been **Female Philanthropy in the Interwar World** Eve Colpus,2018-02-08 Female philanthropy was at the heart of transformative thinking about society and the role of individuals in the interwar period In Britain in the aftermath of the First World War professionalization the authority of the social sciences mass democracy internationalism and new media sounded the future and for many the death knell of elite practices of benevolence Eve Colpus tells a new story about a world in which female philanthropists reshaped personal models of charity for modern projects of social connectedness and new forms of cultural and political encounter Centering the stories of four remarkable British born women Evangeline Booth Lettice Fisher Emily Kinnaird and Muriel Paget Colpus recaptures the breadth of the social cultural and political influence of women s philanthropy upon practices of social activism Female Philanthropy in the Interwar World is not only a new history of women s civic agency in the interwar period but also a study of how female philanthropists explored approaches to identification and cultural difference that emphasized friendship in relation to interwar modernity Richly detailed the book s perspective on women s social interventionism offers a new reading of the centrality of personal relationships to philanthropy that can inform alternative models of giving today Outspoken Women Lesley A. Hall,2014-05-01 Studying a broader period than its contemporaries this comprehensive study reveals a neglected tradition of British women s writing from the Victorian era to the sexual revolution of the 1960s Outspoken Women brings together the many and varied non fictional

writings of British women on sexual attitudes and behaviour beginning nearly a hundred years prior to the second wave of feminism Commentators cover a broad range of perspectives and include Darwinists sexologists and campaigners against the spread of VD as well as women writing about their own lives and experiences Covering all aspects of the debate from marriage female desire and pleasure to lesbianism prostitution STDs and sexual ignorance Lesley A Hall studies how the works of this era didn't just criticise male defined mores and the dark side of sex but how they increasingly promoted the possibility of a brighter view and an informed understanding of the sexual life Hall's remarkable anthology is an engaging examination of this fascinating subject and it provides students and scholars with an invaluable source of primary material
