With the tools in these windows, you'll apply color and shading to your models, select different components, add shadows and lighting effects, and export your project.

SketchUp's menu bar is similar to the menu bars in other software, such as File, Edit, Window, and Help. SketchUp's View menu is a little different from the menu in most programs (Figure 1-2). The View menu has items in the SketchUp window that you can show or hide, including things like the drawing guides, the scene, the component window, and the different windows. If you're looking for tools that change over time of the SketchUp window, such as the View menu, look under the Window menu.
