Good Books Matter

Larry Swartz, Debbie Nyman, 2008 Based on extensive research on the features that make children's books appealing and appropriate this valuable teacher resource offers guidance on selecting books strategies for specific grade levels suggestions for extension and tips for assessment This teacher friendly book is organized around the major genres traditional literature picture books nonfiction poetry and multicultural texts that will inspire young readers Throughout the book teachers will find suggestions for using literature to implement shared reading reading aloud and response strategies with emergent developing and independent readers This comprehensive book is rooted in the belief that educators must consider and offer a wide range of choice to ensure that students read good books It argues that the choices children make about what they read should be governed by their interests and desire to learn not by a grade or reading level Framed (Swindle #3) Gordon Korman, 2012-01-01 The hilarious third SWINDLE book now in paperback Griffin Bing's new principal doesn't like him And Griffin doesn't like the boot camp football atmosphere the new principal has brought Griffin manages to stay out of trouble until a Super Bowl ring disappears from the school's display case with Griffin's retainer left in its place Griffin has been framed Unfortunately the Man doesn't have a Plan and everything his team tries to find out who really took the ring backfires Griffin ends up in an alternate school then under house arrest and finally with an electronic anklet with no way to prove his innocence Griffin smells a rat but will he be able to solve the mystery in time Swindle (Swindle #1) Gordon Korman, 2012-01-01 Ocean's 11 with 11 year olds in a super stand alone heist caper from Gordon Korman After a mean collector named Swindle cons him out of his most valuable baseball card Griffin Bing must put together a band of misfits to break into Swindle's compound and recapture the card There are many things standing in their way a menacing guard dog a high tech security system a very secret hiding place and their inability to drive but Griffin and his team are going to get back what's rightfully his even if hijinks ensue This is Gordon Korman at his crowd pleasing best perfect for readers who like to hoot howl and heist **The Spatial Dynamics of Juvenile Series Literature** Michael G. Cornelius, 2020-11-11 Where we come from where we are where we have been and where we are going all have a huge impact on who we are Theories of space and place also hold that the converse is equally true that we have an impact on those spaces and places we inhabit or dwell within We make space our agencies our cultures our beliefs and values and understandings shape the macro and micro environments around us Just as much however those places we inhabit shape us causing us to adapt ourselves to them Children exist in spaces that are crafted for them by adults by parents by school administrators and teachers and as such their impact on space can be somewhat limited Space is made for them but certainly not to their own specifications or liking In children's literature spaces are often seen as noteworthy markers of a child's progression toward adulthood whether the space is Laura Ingalls' little house or Harry Potter's Hogwarts For these characters movement through space is about growth and change about accepting the inevitability of growing up and the responsibility of the adulthood whether that be marriage and motherhood or vanquishing the most evil wizard of all time However what about juvenile series books whose central

protagonists generally never grow or change The central character of these series usually a flat unchanging trope more than a fully realized fleshed out dynamic figure is a static creation Though characters like Nancy Drew and the Hardy Boys frequently move through different geographies they never change as characters In fact one could argue that the only dynamic that ever experiences any alteration in a series like Nancy Drew is setting Surely there is something significant about the relationship of series books to those spaces their protagonists inhabit This collection explores that relationship the dynamics between the controlled spaces of childhood and the variable spaces of juvenile series literature It shows that the unchanging series book characters demonstrate that their impact on space is far greater than its impact ever is on them reflecting an exercise in spatial authority that most children and even children s book heroes never quite experience
