Routledge Revivals: Man and Technics (1932) Oswald Spengler,2016-11-10 First published in 1932 this book based on an address delivered in 1931 presents a concise and lucid summary of the philosophy of the author of *The Decline of the West* Oswald Spengler It was his conviction that the technical age the culture of the machine age which man had created in virtue of his unique capacity for individual as well as racial technique had already reached its peak and that the future held only catastrophe He argued it lacked progressive cultural life and instead was dominated by a lust for power and possession The triumph of the machine led to mass regimentation rather than fewer workers and less work spelling the doom of Western civilization *The English Version of the Polyglott Bible* Thomas Chevalier,1827

Early Printed Narrative Literature in Western Europe Bart Besamusca,Elisabeth de Bruijn,Frank Willaert,2019-11-05 The essays in this volume are concerned with early printed narrative texts in Western Europe The aim of this book is to consider to what extent the shift from hand written to printed books left its mark on narrative literature in a number of vernacular languages Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed How did this crucial media development affect the nature of these narratives Which strategies did early printers develop to make their texts commercially attractive Which social classes were the target audiences for their editions Around half of the articles focus on developments in the history of early printed narrative texts others discuss publication strategies This book provides an impetus for cross linguistic research It invites scholars from various disciplines to get involved in an international conversation about fifteenth and sixteenth century narrative literature Japanese

Ceremonial for Western Diplomats Attending Shogunal Castle Audiences, 1857-1867 Mayuko Sano,2025-10-01 The formal diplomatic relations between Japan and Western nations dawned when the first American consul general Townsend Harris was received by the thirteenth Tokugawa shogun Iesada at Edo castle in 1857 This work unveils the seventeen castle audiences for Western envoys carried out by the Tokugawa shogunate 1603 1867 during its last decade of reign Through that

process the shogunate completed a ceremonial form based on its own tradition as well as consistent with the Western practice. The endeavours of Tokugawa retainers on the frontline of external affairs at the time prior to the Meiji Restoration 1868 was the true first step of Japan's entry into the international community. The formation of diplomatic ceremonial progressed as a different layer from more political negotiations provides an alternative history of bakumatsu late years of the shogunate foreign relations that has been overlooked in previous studies.
