The Best Class You Never Taught Alexis Wiggins, 2017-09-27 The best classes have a life of their own powered by student led conversations that explore texts ideas and essential questions In these classes the teacher's role shifts from star player to observer and coach as the students Think critically Work collaboratively Participate fully Behave ethically Ask and answer high level questions Support their ideas with evidence and Evaluate and assess their own work The Spider Web Discussion is a simple technique that puts this kind of class within every teacher's reach The name comes from the weblike diagram the observer makes to record interactions as students actively participate in the discussion lead and support one another's learning and build community It's proven to work across all subject areas and with all ages and you only need a little know how a rubric and paper and pencil to get started As students practice Spider Web Discussion they become stronger

communicators more empathetic teammates better problem solvers and more independent learners college and career ready skills that serve them well in the classroom and beyond Educator Alexis Wiggins provides a step by step guide for the implementation of Spider Web Discussion covering everything from introducing the technique to creating rubrics for discussion self assessment to the nuts and bolts of charting the conversations and using the data collected for formative assessment She also shares troubleshooting tips ideas for assessment and group grading and the experiences of real teachers and students who use the technique to develop and share content knowledge in a way that is both revolutionary and truly inspiring

**Bringing the Common Core Math Standards to Life** Yvelyne Germain-McCarthy,Ivan Gill,2014-11-20 As high school math teachers shift to the Common Core State Standards the question remains What do the standards actually look like in the classroom This book answers that question by taking you inside of real Common Core classrooms across the country You ll see how exemplary teachers are meeting the new requirements and engaging students in math Through these detailed examples of effective instruction you will uncover how to bring the standards to life in your own classroom Special Features A clear explanation of the big shifts happening in the classroom as a result of the Common Core State Standards Real examples of how exemplary teachers are using engaging strategies and tasks to teach algebra geometry trigonometry statistics mathematics across the curriculum and more A detailed analysis of each example to help you understand why it is effective and how you can try it with your own students Practical ready to use tools you can take back to your classroom including unit plans and classroom handouts

*Future-proofing STEAME education in South Africa* Rajendran Govender,Josef de Beer,Rouaan Maarman,Rajendra Chetty,2025-02-28 This book aims to contribute to the discourse of finding innovative solutions to the myriad of challenges facing science education in South Africa The book positions itself in the multi disciplinary focus on Science Technology Engineering Arts Mathematics and Entrepreneurship STEAME education rather than the traditional narrow focus on Science Technology Engineering and Mathematics STEM The chapters in the book explore the challenges and opportunities facing STEAME education in a complex 21st century and at the advent of a society with a strong artificial intelligence component in its DNA The leitmotif of the book is how engaging pedagogies could be utilised in the classroom to enhance self directed learning a sine qua non to future proof South Africa s science and technological advancement This is a book written by scholars for scholars Its target audience includes academics and researchers in the field of science education and scholars engaged with innovative teaching pedagogies particularly approaches that would enhance the achievement of learners in disadvantaged contexts The chapters in the book although eclectic in approach all contribute to the central theme of the book Most of the chapters lean on textual analyses literature reviews or concept papers which disclose new ideas before full validation

**Parenting Matters** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Supporting the Parents of Young Children,2016-12-21 Decades of research have demonstrated that

the parent child dyad and the environment of the family which includes all primary caregivers are at the foundation of children's well being and healthy development From birth children are learning and rely on parents and the other caregivers in their lives to protect and care for them The impact of parents may never be greater than during the earliest years of life when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment Parents help children build and refine their knowledge and skills charting a trajectory for their health and well being during childhood and beyond The experience of parenting also impacts parents themselves For instance parenting can enrich and give focus to parents lives generate stress or calm and create any number of emotions including feelings of happiness sadness fulfillment and anger Parenting of young children today takes place in the context of significant ongoing developments These include a rapidly growing body of science on early childhood increases in funding for programs and services for families changing demographics of the U S population and greater diversity of family structure Additionally parenting is increasingly being shaped by technology and increased access to information about parenting Parenting Matters identifies parenting knowledge attitudes and practices associated with positive developmental outcomes in children ages 0 8 universal preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge attitudes and practices and barriers to and facilitators for parents use of practices that lead to healthy child outcomes as well as their participation in effective programs and services This report makes recommendations directed at an array of stakeholders for promoting the wide scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice It is meant to serve as a roadmap for the future of parenting policy research and practice in the United States

**Handbook of Research on Pedagogical Innovations for Sustainable Development** Thomas, Ken D., Muga, Helen E., 2014-03-31

Summary This book brings together case study examples in the fields of sustainability sustainable development and education for sustainable development
