Points of the Arm Tai Yin Lung Channel

手太陰經穴

General	The Lung channel starts on the lateral chest near the coronoid process and travels up the chest slightly, before entering the upper limb. It then descends the anterior aspect of the limb towards the thumb, where it ends on the radial side of the thumb (LU 1). It has 11 points. It is grouped with the Large Intestine under the Metal element in five-element theory.
More specifically	Originating in the Middle Energizer, the channel is said to have links downwards with the Large Intestine (its Yang paired organ), and upwards, through the diaphragm, spreading through the Lungs, trachea and larynx, emerging at Lung 1 just below the lateral end of the clavicle and inferior to the coronoid process. Lung 2 is above the coronoid process and the channel then travels downwards along the forearm, through the cubital fossa, and over the flexor and radial deviation of the hand and wrist ending slightly laterally towards the thumb at the radial styloid. It finishes on the radial side of the base of the thumb (LU 1).
Area covered	Chest, Anterior Arm - Antero-lateral forearm.
Areas affected with treatment	LU 4 segmental supply: lungs, chest, upper Energizer, throat and larynx, elbow and wrist. Skin conditions (eczema/psoriasis).
