James Marriott

Halloween Devil S Advocates:

Halloween Murray Leeder, 2015-02-17 The 1970s represented an unusually productive and innovative period for the horror film and John Carpenter's *Halloween* 1978 is the film that capped that golden age and some say ruined it by ushering in the era of the slasher film. Considered a paradigm of low budget ingenuity its story of a seemingly unremarkable middle American town becoming the site of violence on October 31 struck a chord within audiences. The film became a surprise hit that gave rise to a lucrative franchise and it remains a perennial favourite. Much of its success stems from the simple but strong constructions of its three central characters: brainy introverted teenager Laurie Strode, a late bloomer compared to her more outgoing friends; Dr Loomis, the driven obsessive psychiatrist; and Michael Myers, the inexplicable ghostlike masked killer. Film scholar Murray Leeder offers a bold and provocative study of Carpenter's film which hopes to expose qualities that are sometime effaced by its sequels and remakes. It explores *Halloween* as an unexpected ghost film and examines such subjects as its construction of the teenager and the relationship of *Halloween* the film to *Halloween* the holiday and Michael Myers's brand of pure evil. It is a fascinating read for scholars and fans alike.

The Shining Laura Mee, 2017-09-28 Taking a fresh look at *The Shining* 1980 this book situates the film within the history of the horror genre. It explores Stanley Kubrick's filmmaking style, use of dark humor and ambiguous approach to supernatural storytelling and analyzes the choices made in adapting King's book.

Candyman Jon Towlson, 2018-05-15 Jon Towlson considers how *Candyman* might be read both as a return of the repressed and as an example of nineties neoconservative horror. He traces the film's origins as a Clive Barker short story, discusses the importance of its real life Cabrini Green setting and analyzes its appropriation and interrogation of urban myth.

Prevenge Andrew Graves, 2021-11-16 *Prevenge* 2016 is an entertainingly dark 21st century horror movie detailing the serial killing journey of heavily pregnant Ruth. It's a cleverly crafted narrative full of stark social commentary traversing the delicate line between comedy and tragedy by fusing together a kitchen sink approach with a supernatural revenge plot. This book as part of the *Devil's Advocates* series examines how the film deconstructs the slasher mythology and the sexism therein and upends stereotypical representations of the weak woman and delicate mother. With new exclusive input from writer-director and star Alice Lowe the text also looks at the production's inception and development, assesses its debts to cult British cinema and inspects its umbilical connections to Rosemary's Baby, *Alien*, *Village of the Damned* and many other monstrous child silver screen features.
