Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

Springboks On The Somme - South Africa in the Great War 1914 - 1918 Bill Nasson,2012-10-02 The Great War of 1914 18 was a conflict which engulfed the whole world directly or indirectly It was an imperialist world war that tugged the new Union of South Africa and its people into a series of separate but connected conflicts from the domestic Afrikaner Rebellion on the highveld through the sands of German South West Africa the steamy bush of German East Africa and on to the mud and blood of France and Flanders This book is the first general study of the complex ways in which South Africans experienced the impact of the First World War and responded to its demands burdens and opportunities Told with his customary narrative energy and ironic style Bill Nasson s new history is a lively account not only of how South Africa fought the war but also of the miscalculations and illusions that surrounded its involvement and of how South African society came to imagine and remember that great and terrible conflict

Cracks in the Dome: Fractured Histories of Empire in the Zanzibar Museum, 1897-1964 Sarah Longair,2016-03-09 As one of the most monumental and recognisable landmarks from Zanzibar s years as a British Protectorate the distinctive domed building of the Zanzibar Museum also known as the Beit al Amani or Peace Memorial Museum is widely known and familiar to Zanzibaris and visitors alike Yet the complicated and compelling history behind its construction and collection has been overlooked by historians until now Drawing on a rich and wide range of hitherto unexplored archival photographic architectural and material evidence this book is the first serious investigation of this remarkable institution Although the museum was not opened until 1925 this book traces the longer history of colonial display which culminated in the establishment of the Zanzibar Museum It reveals the complexity of colonial knowledge production in the changing political context of the twentieth century British Empire and explores the broad spectrum of people from diverse communities who shaped its existence as staff informants collectors and teachers Through vivid narratives involving people objects and exhibits this book exposes the fractures contradictions and tensions in

creating and maintaining a colonial museum and casts light on the conflicted character of the colonial mission in eastern Africa *Hans Heyerdahl Hallen* Kathi Holt, Errol Haarhoff, Walter Peters, 2025-10-16 Tracing the life of architect Hans Heyerdahl Hallen 1930 2022 this book reveals the transnational influences that shaped his practice in South Africa and the migratory circles of ideas that defined a new form of subtropical architecture Beginning with Hallen's Nordic and South African roots chapters then explore his practice and studies at the London County Council and Architectural Association where he met with contemporaries such as Jane Drew and Maxwell Fry From here he returned to South Africa with new ideas that challenged the teachings of early modernism instead combining philosophies such as Norberg Schulz's genius loci with African traditional architecture Zulu Kraal to create buildings unique to local communities and topographical conditions This need to embrace vernacular forms was a response to local climate conditions and local materials but also a desire to make cities relevant to the African context In transmuting European teachings within colonial environments Hallen's practice reveals the role of the architect to reflect local communities and to build for their needs and to create spaces for community and resistance Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects the study features a wealth of previously unpublished archival material to explore the role of the architect in the colonial context **Pantheons** Matthew Craske, 2017-07-05 The institution of the pantheon has come a long way from its classical origins Invented to describe a temple dedicated to many deities the term later became so far removed from its original meaning that by the twentieth century it has been able to exist independently of any architectural and sculptural monument This collection of essays is the first to trace the transformation of the monumental idea of the pantheon from its origins in Greek and Roman antiquity to its later appearance as a means of commemorating and enshrining the ideals of national identity and statehood Illuminating the emergence of the pantheon in a range of different cultures and periods by exploring its different manifestations and implementations the essays open new historical perspectives on the formation of national and civic identities
