Handbook of the Cultural Foundations of Learning Na'ilah Suad Nasir, Carol D. Lee, Roy Pea, Maxine McKinney de Royston, 2020-05-01 Edited by a diverse group of expert collaborators the Handbook of the Cultural Foundations of Learning is a landmark volume that brings together cutting edge research examining learning as entailing inherently cultural processes Conceptualizing culture as both a set of social practices and connected to learner identities the chapters synthesize contemporary research in elaborating a new vision of the cultural nature of learning moving beyond summary to reshape the field toward studies that situate culture in the learning sciences alongside equity of educational processes and outcomes With the recent increased focus on culture and equity within the educational research community this volume presents a comprehensive innovative treatment of what has become one of the field's most timely and relevant topics The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by The Spencer Foundation

Literature in the Making Nancy Glazener, 2016 In the eighteenth century literature meant learned writings by the twentieth century literature had come to be identified with imaginative aesthetically significant works and academic literary studies had developed special protocols for interpreting and valuing literary texts Literature in the Making examines what happened in between how literature came to be more precisely specified and valued how it was organized into genres canons and national traditions and how it became the basis for departments of modern languages and literatures in research universities Modern literature the version of literature familiar today was an international invention but it was forged when literary cultures traditions and publishing industries were mainly organized nationally Literature in the Making examines modern literature's coalescence and institutionalization in the United States considered as an instructive instance of a phenomenon that was going global Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer Cervantes and Shakespeare however the development of literature and literary culture in the U.S. was fundamentally transnational Literature in the Making argues that Shakespeare studies one of the richest tracts of nineteenth century U.S. literary culture was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk a foundational paradox that continues to shape literary studies and literary culture Bringing together the histories of literature

s competing conceptualizations its print infrastructure its changing status in higher education and its life in public culture during the long nineteenth century Literature in the Making offers a robust account of how and why literature mattered then and matters now By highlighting the lively collaboration between academics and non academics that prevailed before the ascendancy of the research university starkly divided experts from amateurs Literature in the Making also opens new possibilities for envisioning how academics might partner with the reading public
