

INTRODUCTION

GENERAL

This section has the instructions that are necessary for correct periodic maintenance. This section has two parts: Maintenance Schedule and Maintenance Procedures. The Maintenance Schedule has the maximum time intervals between maintenance checks. The Maintenance Procedures has the instructions for doing the maintenance checks.

MAINTENANCE SCHEDULE

The Maintenance Schedule is a program that includes periodic inspection and lubrication. The schedule uses

the operating hours on the hour meter. The table for the Maintenance Schedule has two schedules: the hour schedule and the period schedule. If the lift truck is operated more than eight hours each day, the hour schedule must be used. If the lift truck is operated less than eight hours each day, the period schedule must be used. The item numbers in the column on the left of the Maintenance Schedule are used with FIGURE 1.

CAUTION

The maintenance schedules are made according to the maximum service intervals. Service the lift truck more often when operating in bad conditions.
