| good - excellent   | The candidate provides a comprehensive and coherent description which includes all the necessary measurements in a logical order. The description should show awareness of the need to use a range of standard masses. In addition, the use of the measurements is explained clearly, including an outline of a graphical method to find the mass of the rock sample, or calculation using two or more standard masses and averaging. For 6 marks there must be a description of how to make accurate measurements.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 5 - 6      |
| modest - adequate  | The candidate's description includes the necessary measurements using one standard mass as well as the rock sample. The description may not be presented in a logical order and they show little consideration in relation to making the measurements accurately. A clear explanation is provided of how to find the mass of the rock sample from their measurements, including correct use of Hooke's law through calculations or inadequate graphical method.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 3 - 4      |
