Lost Memory Of Skin:

Lost Memory of Skin Russell Banks, 2011-09-27 The acclaimed author of *The Sweet Hereafter* and *Rule of the Bone* returns with a provocative new novel that illuminates the shadowed edges of contemporary American culture with startling and unforgettable results Suspended in a strangely modern day version of limbo the young man at the center of Russell Banks's uncompromising and morally complex new novel must create a life for himself in the wake of incarceration Known in his new identity only as the Kid and on probation after doing time for a liaison with an underage girl he is shackled to a GPS monitoring device and forbidden to live within 2 500 feet of anywhere children might gather With nowhere else to go the Kid takes up residence under a south Florida causeway in a makeshift encampment with other convicted sex offenders Barely beyond childhood himself the Kid despite his crime is in many ways an innocent trapped by impulses and foolish choices he himself struggles to comprehend Enter the Professor a man who has built his own life on secrets and lies A university sociologist of enormous size and intellect he finds in the Kid the perfect subject for his research on homelessness and recidivism among convicted sex offenders The two men forge a tentative partnership the Kid remaining wary of the Professor's motives even as he accepts the counsel and financial assistance of the older man When the camp beneath the causeway is raided by the police and later when a hurricane all but destroys the settlement the Professor tries to help the Kid in practical matters while trying to teach his young charge new ways of looking at and understanding what he has done But when the Professor's past resurfaces and threatens to destroy his carefully constructed world the balance in the two men's relationship shifts Suddenly the Kid must reconsider everything he has come to believe and choose what course of action to take when faced with a new kind of moral decision Long one of our most acute and insightful novelists Russell Banks often examines the indistinct boundaries between our intentions and actions A mature and masterful work of contemporary fiction from one of our most accomplished storytellers *Lost Memory of Skin* unfolds in language both powerful and beautifully lyrical showcasing Banks at his most compelling his reckless sense of humor and intense empathy at full bore The perfect convergence of writer and subject *Lost Memory of Skin* probes the zeitgeist of a troubled society where zero tolerance has erased any hope of subtlety and compassion a society where isolating the offender has perhaps created a new kind of victim **Lost**

Memory of Skin Russell Banks, 2011-10-04 The author of *Continental Drift* *Rule of the Bone* and *The Sweet Hereafter* returns with a very original riveting mystery about a young outcast and a contemporary tale of guilt and redemption The perfect convergence of writer and subject *Lost Memory of Skin* probes the zeitgeist of a troubled society where zero tolerance has erased any hope of subtlety and compassion Suspended in a modern day version of limbo the young man at the centre of Russell Banks's uncompromising and morally complex new novel must create a life for himself in the wake of incarceration Known in his new identity only as the Kid he is shackled to a GPS monitoring device and forbidden to go near where children might gather He takes up residence under a south Florida causeway in a makeshift encampment with other

convicted sex offenders Barely beyond childhood himself the Kid despite his crime is in many ways an innocent Enter the Professor a university sociologist of enormous size and intellect who finds in the Kid the perfect subject for his research But when the Professor's past resurfaces and threatens to destroy his carefully constructed world the balance in the two men's relationship shifts Banks has long been one of our most acute and insightful novelists *Lost Memory of Skin* is a masterful work of fiction that unfolds in language both powerful and beautifully lyrical Pedagogic Encounters Aristi

Trendel,2021-02-15 This book offers a new approach to the genre of the campus novel Through a critical analysis of eleven novels Aristi Trendel argues that the specificity and complexity of the pedagogic rapport between professor and student calls for a new genre the Master Disciple novel After the 1980s the professor student relationship was highly scrutinized and politicized making the Master Disciple novel essential to critical theorists and educators Furthermore the Master Disciple novel broadens the scope of the campus novel as the master pupil rapport can develop beyond the halls of academia Though some of the novels analyzed in this book have been thoroughly discussed before Trendel reads them through the lens of the pedagogic rapport and in constant dialogue with a broad range of themes such as gender sexuality and power The book will be important for academics students and all who are interested in the bond between teacher and student **Contemporary**

This collection aims to examine the relationship between American fiction and innovations that marked the first decades of the 21st century the Internet social media smart objects and environments artificial intelligence nanotechnologies genetic engineering and other biotechnologies transhumanism These technological innovations redefine the way we live in and imagine our world interact with each other and understand the human being in his or her ever closer relationship to the machine a human being no longer as in the past cared for or repaired but now enhanced or replaced What about our artistic and cultural practices Are these recent advances changing language and literature How is fiction transformed by technological progress and what representations of progress can it oppose Can fiction offer a critique of the new media and the upheavals they precipitate How does the temporality of literature respond to a technical time subjected to the imperative of efficiency where the present is a slave to the future Do virtual worlds challenge the primacy of literary fiction as a privileged mode of escape from daily life In a context where software can generate literary works can the force of poetical advent still oppose algorithmic logics What becomes of the body in a world in which its technical extensions increase the externalization of its cognitive functions in media artifacts and digital networks In order to explore these questions scholars here investigate the American fiction of Russell Banks Don DeLillo David Foster Wallace Jonathan Lethem Tao Lin Richard Powers Kenneth Goldsmith Jennifer Egan or Jonathan Franzen as well as the Cyberpunk genre and the Neuronovel The
