Love In The Time Of Climate Change:

Love in a Time of Climate Change Sharon Delgado, 2017-06-30 Love in a Time of Climate Change challenges readers to develop a loving response to climate change which disproportionately harms the poor threatens future generations and damages God's creation This book creatively adapts John Wesley's theological method by using scripture tradition reason and experience to explore the themes of creation and justice in the context of the earth's changing climate By consciously employing these four sources of authority readers discover a unique way to reflect on planetary warming theologically and to discern a faithful response The book's premise is that love of God and neighbor in this time of climate change requires us to honor creation and establish justice for our human family for future generations and for all creation From the introduction As we entrust our lives to God we are enabled to join with others in the movement for climate justice and to carry a unified message of healing love and solidarity as we live into God's future offering hope in the midst of the climate crisis that another world is possible God is ever present always with us Love never ends

Love in the Time of Climate Change Caroline Woodwell, 2020 *Love In The Time Of Global Warming, With Betty And Veronica, And Zombies* Martin Avery, 2013-09-04 Love In The Time Of Global Warming With Betty And Veronica and Zombies lives up to all the promise in its title It's the story of two romances a love triangle and Zen relationships set in Riverdale Muskoka Ontario Canada during the time when planetary overheating made it look like the end of the world as we know it

Love in the Time of Ethnography Lucinda Carspecken, 2017-11-15 Love in the Time of Ethnography explores love variously defined as an important facet of human life and a worthy focus of study The authors look at love in association with an Alevi and Sunni couple in Turkey organizers of Mexican American and immigrant youth movements Christian missionaries in China an elderly man with dementia two women coming home to queer identity a White researcher working with Black women in the US the common ground between Dogen's Zen teachings and Habermas's critical theory an Albanian Sufi community in Michigan and interactions between humans and the natural world It also includes theoretical writing on the place of love in social analysis whether this involves relationships between researchers and participants or the nature of human connection itself The authors argue that social research is an affective process as well as a cognitive one and that fellow feeling is an essential component of making sense of the world Along with more traditional scholarly forms the contributors to this book use auto ethnography life stories archival research and poetry noting that style itself conveys information and emotion Writing is always to some extent partisan While anthropologists and other social researchers have explored this idea over the last few decades they have more often explored it with an eye to critique than to the ideals underlying that critique This is a collection of essays about what ethnographers are aiming for as well as the problems they address and the authors discuss ethical principles like *agape* *hizmet* and *cari o* as rationales for ethnography and rationales for social change

Christine M. Larson, 2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In Love in the Time of Self Publishing Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing s most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia s historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia s experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia s rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members Love in a Time of Slaughters Susan McHugh, 2019-04-29 Love in a Time of Slaughters examines a diverse array of contemporary creative narratives in which genocide and extinction blur species lines in order to show how such stories can promote the preservation of biological and cultural diversity in a time of man made threats to species survival From indigenous novels and Japanese anime to art installations and truth commission reports Susan McHugh analyzes source material from a variety of regions and cultures to highlight cases where traditional knowledge works in tandem with modern ways of thinking about human animal relations In contrast to success stories of such relationships the narratives McHugh highlights show the vulnerabilities of affective bonds as well as the kinds of loss shared when interspecific relationships are annihilated In this thoughtful critique McHugh explores the potential of these narratives to become a more powerful urgent strategy of

resistance to the forces that work to dehumanize people eradicate animals and threaten biodiversity As we unevenly contribute to the sixth great extinction this timely compelling study sheds light on what constitutes an effective response from a humanities focused interdisciplinary perspective McHugh s work will appeal to scholars working at the crossroads of human animal studies literature and visual culture as well as artists and activists who are interested in the intersections of animal politics with genocide and indigeneity *Love in the Time of Zombies* Lynn Messina,2014-02-12 It s 2017 and a raging virus has drastically reduced the world s population of men transforming all but a fraction into a race of putrid brain dead zombies So what s single ambitious 23 year old Hattie Cross to do for fun not to mention romance In this hilarious marriage of post apocalyptic fiction and supersmart chick lit with a wry twist novelist Lynn Messina spoofs dating manuals monsters and the superficial media world all the while creating a feisty funny heroine with heart *The American Sonnet* Dora Malech,Laura Smith,2023-01-12 *The American Sonnet* An Anthology of Poems and Essays showcases the diversity of the American sonnet 800 years after the sonnet s invention this volume celebrates the extraordinary development of the sonnet in the hands of American poets and those living under US empire from traditional to experimental political and personal Edited by poet and scholar team Dora Malech and Laura T Smith this anthology collects and foregrounds an impressive range of 20th and 21st century sonnets including formal and formally subversive sonnets by established and emerging poets and presents these alongside a selection of earlier American sonnets highlighting connections across literary moments and movements The critical essays likewise draw together diverse voices methodologies and historical and theoretical perspectives that represent the burgeoning field of American sonnet studies Malech and Smith capture the central questions for American sonneteers Who belongs to the tradition of the American sonnet How do translation and multicultural and transnational identities complicate the Americanness of the American sonnet How do Black queer trans neurodiverse working class Appalachian and Deaf poets claim the sonnet and how does it serve them How do American poets experiment with meter stanza rhyme lineation and visuality to make the sonnet their own And how are American sonneteers writing about love loss and trauma in new ways that change the sonnet tradition *The American Sonnet* shows the form continuing to function as a poetic bellwether as centuries of poets use its peculiar confines to negotiate questions of nation race class gender sexuality diaspora and poetic tradition **The Future of Ethics** Willis Jenkins,2013-10-24 *The Future of Ethics* interprets the big questions of sustainability and social justice through the practical problems arising from humanity s increasing power over basic systems of life What does climate change mean for our obligations to future generations How can the sciences work with pluralist cultures in ways that will help societies learn from ecological change Traditional religious ethics examines texts and traditions and highlights principles and virtuous behaviors that can apply to particular issues Willis Jenkins develops lines of practical inquiry through prophetic pragmatism an approach to ethics that begins with concrete problems and adapts to changing circumstances This brand of pragmatism takes its cues from liberationist theology

with its emphasis on how individuals and communities actually cope with overwhelming problems Can religious communities make a difference when dealing with these issues By integrating environmental sciences and theological ethics into problem based engagements with philosophy economics and other disciplines Jenkins illustrates the wide understanding and moral creativity needed to live well in the new conditions of human power He shows the significance of religious thought to the development of interdisciplinary responses to sustainability issues and how this calls for a new style of religious ethics
